## PANORAMA SURVEY

Before break, our students participated in our Panorama Survey. Sample questions asked are:

How often do you worry about violence at your school? How clean is the building where you go to school?

How fair are the rules at your school? How excited would you be if you could have your same teachers next year?

It was interesting to see that, according to the responses from the students, all 3 grade levels came to the same conclusion on the top 3 common topics in need of improvement. Those were:

The data will also be used to guide meaningful discussions with students in their WIN classes, using student feedback to build understanding of differing perspectives and empower students to recognize their role in fostering a positive school climate.
