Subject: FDA(LOCAL): Admissions: Interdistrict Transfers

MISD Board of Trustees: July 22, 2025

Agenda Item – 5E7

Background Information

Currently, FDA(LOCAL) affords the district no ability to deny a student to remain enrolled if the student becomes a nonresident after the fourth six weeks. This change would require the student to qualify for enrollment as a transfer after becoming a nonresident regardless of the time of year. This change would allow non-resident students who meet transfer criteria to remain enrolled but also provide flexibility to the district to deny continuous enrollment for students who do not meet transfer criteria.

Fiscal implications

Not allowing a resident who becomes a nonresident to remain enrolled would result in the district not receiving the ADA funds associated with that student for the remainder of the school year.

Administration Recommendation

Administration recommends approving the updated FDA(LOCAL) with the changes made by TASB.
