INFORMATION

BACKGROUND INFORMATION

Levelland ISD's Food Service Department has gathered the following data through the first 11 weeks of the 2025-2026 school year. NOTE: District enrollment is down over 100 students from last year.

Average number of meals served daily:

Breakfast – 1,032 (1,101 through first seven weeks last year)

Lunch – 1,340 (1,322 through first seven weeks last year)

Community Eligibility Provision (CEP) - this allows all students in LISD to eat all meals free of charge. We qualify for this for four consecutive years and then must reapply.

Positives:

All students eat free

Daily lunch participation is up from last year

No meal application forms

No bad debt due to unpaid student meal charges

New kitchen equipment / walk-in freezer

Challenges:

Staffing shortages / Substitute shortages

NOTE: The district will be submitting an RFP for a Food Service Management Company by December 5, 2025. The current five-year contract with Sodexo expires June 30, 2026.
