April 2019 Board Report

Curriculum and Campus Updates

April is already here! This year has just flown by, and we have learned a whole lot. We will start the month off learning about what a plant is and how plants grow. We will spend two weeks learning about the differences between an insect and a spider. We will be focusing on the letters li, Oo, Kk, Dd, Ee, Uu, Gg, and Rr. We will practice identifying words that do and do not end with the same sound. We will continue to work on segmenting two and three letter phoneme words as well as work on producing words that end with the same sound. In math, we will focus on shapes (sliding, flipping, turning,& creating them) and recognizing and comparing heights and lengths. We will have our Family Fun Night on April 4th and kick off the month sharing our yummy recipes with our school. We will have our promotion picture day on April 16th. We will end the month by going on a field trip to Dino World in Glen Rose, TX on April 26th! What a fun month we will have!
