## **Section I: Abstract of Project/Activity**

The English for Speakers of Other Languages (ESOL) Program is designed to develop proficiency in the English language for those students who enter the district as either non-English speaking or limited English speaking.

Nineteen certified teachers and three instructional aides will provide ESL daily instruction for approximately 582 prekindergarten through twelfth grade students from more than fifty countries. Two certified bilingual teachers will provide daily instruction for 9 kindergarten students and 21 first grade students. Coppell ISD is applying under the literacy provision of the Coppell Education Development Corporation for a total of \$ 1,083,600 to fund salaries for the twenty-two personnel units. Use of the 2006-2007 grant funds will allow the teachers to offer English language instruction which is critical for the long-term personal, social, and economic development of our ESOL students. Developing literacy skills through ESOL instruction allows these students to attain academic success in the classroom while contributing towards the mission of CISD as a global leader in educational excellence. The grant funds will also allow for the development of bilingual and biliteracy skills for both Spanish and English speaking students in dual languages.

The ESOL students contribute immensely to the strong academic climate in CISD as evidenced by their performance on the recent Texas Assessment of Knowledge and Skills. These international students also contribute to the enrichment of the lives of our monolingual students by sharing insights into their language and culture. In turn, our native English speakers have an opportunity to develop positive attitudes towards people of other countries and cultures. The world's economy is now intertwined to such a degree that professional interaction is seldom possible on anything but an international basis. Our students are in a unique position to develop

an understanding of other cultures which will only stand to serve them well as they enter the international work force.

## **Section II: Description of Proposal and Nature of Request:**

The purpose of the ESOL Program in CISD is to provide limited English proficient students skills that will enable them to “successfully complete or make appropriate progress toward personal educational goals identified in his/her customized learning program”.

Three broad literacy goals for ESOL learners have been established by Teachers of English to Speakers of Other Languages, Inc., (TESOL) to provide guidance for language teachers as well as mainstream teachers as they meet the challenges of providing effective education for the ESOL students from Prekindergarten through twelfth grade. These goals include personal, social, and academic uses of English.

- Goal 1: Students will use English to communicate in social settings.
  - Objective: Use English to participate in social settings.
  - Objective: Interact in, through, and with spoken and written English for personal expression and enjoyment.
  - Objective: Use learning strategies to extend communicative competence.
- Goal 2: Students will use English to achieve academically in all content areas.
  - Objective: Use English to interact within the classroom.
  - Objective: Use English to obtain, process, construct, and provide subject matter information in spoken and written form.
  - Objective: Use appropriate learning strategies to construct and apply academic knowledge.

- Goal 3: Students will use English in socially and culturally appropriate ways.
  - Objective: Use the appropriate language variety according to audience, purpose and setting.
  - Objective: Use nonverbal communication appropriate to audience, purpose and setting.
  - Objective: Use appropriate learning strategies to extend sociolinguistic and sociocultural competence.

To effectively meet these goals the ESOL teachers will:

- Assess students upon entry into the program to determine their academic needs
- Provide appropriate instruction in the Texas Essential Knowledge and Skills
- Consult with mainstream classroom teachers to monitor student progress
- Annually assess student progress using appropriate measurements

This is an existing program that is required by the Texas Education Code Commissioner's Rules Concerning Limited English Proficient Students (Chapter 89. Adaptations for Special Population subchapter BB.) In order to comply with state requirements CISD offers daily instruction in English at the elementary and secondary level. Program implementation ranges from separate courses at the secondary level to a pullout program at designated elementary campuses. The Prekindergarten students attend half-day sessions at Valley Ranch Elementary School.

The bilingual program is required by the Texas Education Code, 19 TAC 89.1205 (a). A bilingual program provides for learning basic skills in the primary language of the student. The CISD is responsible for providing opportunities for students to become competent in speaking, reading, writing and comprehending the English language.

To effectively meet these goals the bilingual teacher will:

- Assess students upon entry into the program to determine their academic needs
- Provide appropriate instruction in the Texas Essential Knowledge and Skills
- Annually assess student progress using appropriate measurements

In CISD, the bilingual programs currently serves kindergarten and first grade students, with the intent of expanding the program through grade 5 as these students move up through their elementary grades.

Without the requested funds, the CISD will need to reexamine current student teacher ratios in all classes in order to provide district funding for this program. Denial of CEDC funds may also result in a decrease in specialized programs for all students in the district. If CISD is not able to adequately fund this program at the current level, a decrease in the district's state accountability rating could result.

The 2006-2007 ESOL Program will require nineteen teachers and three instructional aides to deliver a quality program. The bilingual program will require two teachers. All training of ESOL/Bilingual staff as well as training for regular classroom teachers will take place at regularly scheduled faculty meetings and district workshops. This program will receive approximately \$63,400 from Title III funds. These monies are used to supplant ESOL program needs. During the 2006-2007 academic year this money will be used to:

- Provide additional training for ESOL/Bilingual and mainstream teachers at Region X  
Educational Service Center and other designated training sessions within CISD
- Provide additional program materials
- Provide adult ESL classes to the community so parents can become partners in their student's education

The following charts show the number of ESOL/Bilingual students served by this project.

**2006 – 2007 ESL/BILINGUAL PROJECTIONS**

PreK	K	1 <sup>st</sup>	2 <sup>nd</sup>	3 <sup>rd</sup>	4 <sup>th</sup>	5 <sup>th</sup>
60	84	93	105	48	35	44

\*Only schools within city limits of Coppell are included in this proposal

6 <sup>th</sup>	7 <sup>th</sup>	8 <sup>th</sup>	9 <sup>th</sup>	10 <sup>th</sup>	11 <sup>th</sup>	12 <sup>th</sup>
20	10	14	23	20	19	7

**Section III: Budget**

**\$1,083,600** Total budget request for salaries and benefits (twenty-two staff members)

**Section IV: Project Measurements and Evaluation**

**Project Statistics**

Total number of Coppell students in ESL/BILINGUAL Programs: 582 (6% of total Coppell student population)

Dollars per student proposed: \$1,861.

The effectiveness of this project can be qualitatively measured by monthly documentation of strategies and reports. These will include checklists, parent conferences, student portfolios and anecdotal records from teachers.

**Evaluation of Project's Success**

A valid measure of a non-English speaking student's progress in acquiring the Texas Essential Knowledge and Skills are the results of the TAKS tests administered in the spring of 2006.

PROGRAM GOAL	STANDARD	MOST RECENT MEASURE	EVALUATION INSTRUMENT
Increase the percent of ESL students who pass the TAKS exams in Reading and Writing.	Reading: 100% Writing: 100%	Reading: 78% Writing: 92%	Reading TAKS Writing TAKS

The linguistic and cognitive knowledge that ESOL students bring to school are a solid base for building their future as speakers of English. Only if ESL instruction is part of a rigorous educational program will the promising futures of these students be realized. The CISD respectfully applies for this grant in order to provide this quality education.
