

## BNAS building report for August 2021

The BNAS team is happy to greet students back into the halls of our schools. Each of our team members received an official BNAS folio and lanyards along with a stress ball shaped like a buffalo. We have created more google drives to house language and cultural resources for our staff to use, primarily focused on materials that make learning fun and accessible. At the time there isn't much to report on but look forward to the coming year
