### **ISAT Testing**

Science ISAT scores are starting to come in. We are pretty excited about our early results as this year is the first year they are officially reporting scores on the newer science ISAT.

ELA testing will begin April 18th and Math on May 1st.

### **8th Grade Promotion**

Thursday May 25th at 10:00 AM

We changed the Promotion date this year due to the calendar dates and that there is not a day in between Memorial Day and the promotion as we normally have done. There have been a few requests to have it the same day as HS graduation as parents have taken that whole day off for graduation as well. The other request was that it be held in the morning hours as the gym heats up in the afternoon.
