

# Charter Amendment Request

Charter Authorizing  
Panel  
Presentation  
May 15, 2024

**eStem Public Charter Schools is requesting the reconfiguration of our current Junior High campuses and our High School campus. We have two Junior High campuses, Downtown Junior High and East Village Junior High, which currently both serve students in grades 7-9. Our High School campus, eStem High School, currently serves students in grades 10-12. To best serve our students and families, we would like to merge our Junior High campuses to serve all students in grades 7-8 at one location, the current Downtown Junior High campus. This scenario will allow our High School to serve students in grades 9-12. To provide this opportunity for our 9th grade students, the current East Village Junior High campus will become a Freshman Academy.**
