INDEPENDENT AUDITOR'S REPORT

To the Superintendent and Board of Trustees Minidoka Joint School District No. 331

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Minidoka Joint School District No. 331 (the "District") as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, except for the effects of the matter described in the "Basis for Qualified Opinion" paragraph, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2024, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Qualified Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Matter Giving Rise to the Qualified Opinion

Governmental Accounting Standards Board Statement No. 75 ("GASB 75") has not been implemented. In accordance with GASB 75, deferred inflows, deferred outflows, net other postemployment benefits (OPEB) assets or liabilities, and expenses relating to the reporting for postemployment benefits other than pensions are required to be determined and reported. These items would affect assets, liabilities and net position on the Statement of Net Position and expenses on the Statement of Activities. The amount by which this departure would affect the assets, liabilities, net position and expenses has not been determined.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, and design and perform audit procedures responsive to those risks. Such
 procedures include examining, on a test basis, evidence regarding the amounts and disclosures
 in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing an
 opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is
 expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedules of employer's share of net pension liability and of employer contributions, and budgetary comparison information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual nonmajor fund and fiduciary fund financial statements, as well as the combining and individual agency fund schedules of receipts, disbursements, and changes in fund balance are presented for purposes of additional analysis and are not a required part of the financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 US Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements, the combining and individual agency funds schedules of receipts, disbursements, and changes in fund balance, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, the combining and individual agency funds schedules of receipts, disbursements, and changes in fund balance, and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 28, 2025 on our consideration of the Minidoka Joint School District No. 331's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION & ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2024

The Minidoka County School District's discussion and analysis of financial performance provides an overall review of the District's financial activities for the year ending June 30, 2024. The intent of this discussion and analysis is to look at the District's financial performance as a whole. This should be read in conjunction with the financial statements, which immediately follow this section.

Financial Position

- The District saw an increase in funding and reimbursements from the State from \$31,834,333 in fiscal year 2023 to \$37,978,434 in fiscal year 2024, or an increase of 19.3% in all funds. The difference stemmed from an increase due to the enrollment calculation and additional funding provided by state sources.
- Local revenue in all funds decreased from \$5,124,577 in fiscal year 2023 to \$4,511,968 in fiscal year 2024, a decrease of 11.95%. These decreases primarily stem from a reduction in property tax revenue.
- Total General Fund revenues accounted for \$39,339,769 or 79% of all District revenues.
 Non-General Fund revenues in the form of charges for services, operating grants, capital grants and contributions accounted for \$10,460,463 or 21% of all revenues totaling \$49,800,231.
- The District's General Fund balance increased by \$3,326,113 from \$1,618,051 in fiscal year 2023 to \$4,944,164 in fiscal year 2024. The General Fund Operating Reserve is equivalent to 5% of its fiscal year 23-24 General Fund revenue. The increase in general fund balance was difficult to predict because of additional state funding that was provided late in fiscal year 23-24 and after the District's annual budget had been approved.

Overview of the Financial Statements

The District-wide financial statements are organized to provide an understanding of the fiscal performance of the District as a whole in a manner similar to a private sector business. The basic financial statements consist of two kinds of statements that present different views of the District's financial activities.

These statements utilize the accrual basis of accounting. This basis of accounting recognizes the financial effects of events when they occur, without regard to the timing of cash flows related to the events.

- The Statement of Net Position and Statement of Activities provide information on a district-wide basis. The statements present an aggregate view of the District's finances. District-wide statements contain useful long-term information, as well as information for the completed fiscal year.
- The remaining statements are fund financial statements that focus on individual funds and financial
 activities of the District. Fund statements generally report operations in more detail than the districtwide statements.

District-Wide Financial Statements

The district-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The two district-wide statements report the District's net position and how they have changed. Comparative data to the prior year is provided in Exhibit 1 and 2. Net position, the difference between the District's position and liabilities, are one way to measure the District's overall financial position.

- Increases or decreases in the District's net assets are one indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the overall financial condition of the District, additional non-financial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities should be considered.

In the district-wide financial statements, the District's activities are all classified as governmental activities. Governmental activities include all regular and special education, all educational support activities, administration, transportation, and food services. Most of the activities are supported by property taxes and state formula driven support.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds and not on the district as a whole. Funds are accounting devices the District uses to keep track of sources of funding and spending on particular programs and to demonstrate compliance with various regulatory requirements.

These statements utilize the modified accrual basis of accounting. This basis of accounting recognizes revenues in the period that they become measurable and available. It recognizes expenditures in the period that they become measurable, funded through available resources and payable within a current period.

- Some funds are required by state law and by bond covenants.
- The District establishes other funds to control and manage money designated for particular purposes or to show that it is properly using certain revenues, like grants.
- Most of the District's activities are represented in governmental funds, which generally focus on (1) how cash and other financial assets, which are readily converted to cash, flow in and out, and (2) the

balances left at year-end that are available for funding future basic services. Consequently, the governmental funds statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Governmental fund information does not report on long-term commitments as is reported in the district-wide statements.

• Fiduciary funds are used to account for assets held by the District in its capacity as agent or trustee. All of the District's fiduciary activities are reported in a separate Statement of Fiduciary Net Position. The fiduciary activities have been excluded from the District's district-wide financial statements because the District cannot use these assets to finance its operations.

The School District as a Whole

Net position, which is the difference between total assets and total liabilities, is one indicator of the financial condition of the District. When revenues exceed expenses, the result is an increase in net position. When expenses exceed revenues, the result is a decrease in net position. The District's net position, as measured in the Statement of Net Position (Exhibit 1), can be one way to measure the District's financial position. Over time increases or decreases in the District's net position are one indicator of whether its financial position is improving, deteriorating, or remaining essentially the same. However, it should be noted that the District's goal and mission is to provide success for each child's education and is not necessarily to generate "profits" as companies and corporations do. For this reason, many other non-financial factors should be considered in assessing the overall position of the District.

The District's net position increased in the 2023-2024 fiscal year. Its net position is now \$12,008,837 compared to \$11,838,810 last year, a difference of \$170,027. The change is primarily due to pension-related items.

EXHIBIT 1				
STATEMENT OF NET POSITION				
ASSETS	June 30, 2024	June 30, 2023		
Current and other assets	\$ 12,652,694	12,240,662		
Capital assets (net of depreciation)	22,426,834	22,676,938

Long-term liabilities	4,265,000	5,990,000		
Net pension liability	20,857,441	21,217,413		
TOTAL LIABILITIES	33,394,295	36,362,432		
DEFERRED INFLOWS OF RESOURCES	347,796	135,395		
NET POSITION				
Net investment in capital assets	16,436,834	14,961,487		
Restricted	1,199,179	3,365,695		
Unrestricted	(5,627,176)	(6,488,372)		
TOTAL NET POSITION	\$ 12,008,837	11,838,810		

Governmental Activities

Exhibit 2 shows the changes in net position between the difference of revenues and expenses and compares them to the prior year. For the fiscal year 2023-24, Unrestricted Grants and Entitlements accounted for 76% of the revenue and Property Taxes made up 6%. Instructional Programs accounted for 51% of total District expenses and Support Services expenses made up 33%.

EXHIBIT 2		
CHANGES IN NET POSITION		
	June 30, 2024	June 30, 2023
REVENUES		
Program Revenues		
Charges for Service	\$ 477,899	\$ 376,261

Interest and fees on long-term debt	166,417	96,305
Community service	12,289	23,359
Total Expenses	49,685,778	51,478,349
Prior period adjustments	-	-
Change in Net Position	\$ 170,027	\$ (5,875,988)

Instructional expenses include activities directly dealing with teaching of pupils and the interaction between teacher and pupil.

Support Services expenses include:

- Guidance, health services, improvement of instruction for staff and library services.
- School Administration; including building principals and office staff.
- District Administration expenses associated with administrative and financial supervision
 of the district. It also includes expenses related to planning, research, development and
 evaluation of support services, as well as the reporting of his information internally and to
 the public.
- Operation of Plant and Maintenance activities involved with keeping the school grounds, buildings, and equipment in an effective working condition.
- Transportation activities involved with the conveyance of students to and from school as well as to and from school activities.

Non-Instructional expenses include:

- Food Services preparation, delivery, and servicing of breakfast, lunches and snacks to students.
- Community Services expenses related to student activities provided by the School
 District which are designed to provide opportunities for pupils to participate in school
 events, public events or a combination of these for the purpose of motivation, enjoyment
 and skill improvement.

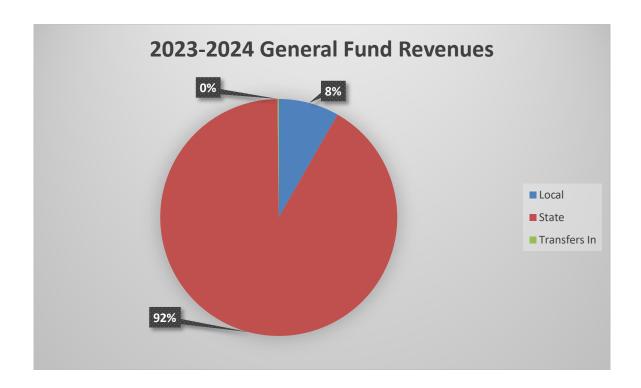

Principal payments on bonds for facility acquisition and construction as well as annual
plant facilities projects for renovations, HVAC and building additions to keep the buildings
maintained and comfortable for student use.

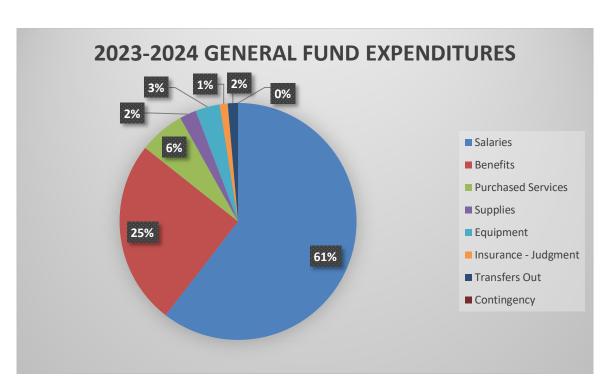

Exhibit 3 shows the excess of revenues and other financing sources over expenditures and other financing (uses) for the governmental funds for the fiscal years ending June 30, 2024 and 2023.

Debt Service

At June 30, 2024, the School District had \$5,990,000 in outstanding debt for bond levies, with a \$1,725,000 payment due within one year. The District's debt related to bus leases were paid in full during the fiscal year.

General Fund Budgeting Highlights

The School District's budget is prepared according to Idaho law and is based on accounting for certain transactions on the basis of cash receipts, disbursements, and encumbrances. The proposed budget is formally adopted in June for the subsequent year. The most significant budgeted fund is the General Fund. The budget is then often amended later in the fiscal year, typically in June, following determination of the first attendance period,

placement of certified staff, and certification of all levies on property taxes. The above graphs show the amended 2023-2024 revenues and expenditures in graphical comparison. State appropriations made up 91.7% of the total general fund revenues and salary and benefits comprised roughly 70% of the general fund expenditures. The 2023-24 amended budget resulted in appropriations increasing \$590,137. This represents a 1.1% increase from the adopted budget. The increase included re-appropriated state revenues, under budgeted general fund grants, and matching fund grant increases.

For the General Fund, the revised budget calculated income estimate was \$36,734,000. The original budget estimate from the adopted budget was \$36,734,000. During fiscal year 2023-2024, the District's original budget was \$2,250,000 for property taxes and other revenue and \$34,484,000 for other inter-governmental revenues. The School District received \$2,209,825 in property and other revenues and \$37,195,632 in other intergovernmental revenue.

Capital Assets

At the end of the fiscal year 2023-2024, the School District had \$22,426,834 invested in land, building, furniture and equipment, and vehicles qualifying as fixed assets. Exhibit 4 shows fiscal 2023-2024 capital asset balances compared to 2022-2023. Overall capital assets decreased \$250,104 from fiscal year 2022-2023 to fiscal year 2023-2024.

EXHIBIT 4		
CAPITAL ASSETS (NET OF DEPRECIATION)		
	June 30, 2024	June 30, 2023
Land	\$ 1,060,096	\$ 1,060,096
Buildings and improvements	17,782,669	17,649,508
Furniture and equipment	2,165,494	2,680,592
Vehicles	1,418,575	1,286,742
Total Revenue	\$ 22,426,834	\$ 22,676,938

General Fund Balance

At fiscal year end, the fund balance for the General fund was \$4,944,164. Exhibit 5 shows designations, contingencies, and reserves budgeted for payment in the fiscal year 2023-2024. These designations are necessary because of the June 30 year-end that imposes a budget deadline for all projects. They are budgeted projects that (1) could not be finished and paid for by June 30, 2024, (2) could not be initiated before June 30, 2024, (3) are designated to a reserved fund or grant, or (4) are used to help balance the 2024-2025 year budget.

EXHIBIT 5			
2023-2024 GENERAL FUND BALANCE (Carryover			
		June 30, 2024	June 30, 2023
DESIGNATIONS:			
General fund grants & designations	\$	-	\$ -
Contingency 2024-2025		2,000,000	-
Balance 2024-2025 General Budget		-	1,600,000
Undesignated		2,944,164	18,051
Total Revenue	\$	4,944,164	\$ 1,618,051

The General Fund balances documented in Exhibit 5 above include designations as well as contingencies. The total amount of budgeted contingency for the 2024-2025 school year is \$2,000,000 or 5% of the total General Fund. The Districts goal has been to maintain the General Fund contingency at the 5.0% level recommended. For the 2023-2024 school year ending on June 30, 2024 the budgeted General Fund contingency was \$1,600,000 or 4.1% of the total budget in the General Fund.

Exhibit 6 shows historical data of ending fund balances in the General Fund.

^{***}One time State funding was awarded on July 1 for previous year.

Economic Factors and the Budget

The Minidoka County School District is financially stable having established a firm economic base on the funds received from the State of Idaho. The Board of Trustees continues to be conservative in planning ahead to protect the public trust with regard to the use of public funds. The economic outlook for the District and State of Idaho is improving as shown in the stability of our fund balances and from the help of Federal funds through the impact of the Covid Pandemic.

The Minidoka County School District must educate minority student populations that require costly special program funding. Current figures show that Limited English Proficiency students comprise 14% of the Minidoka student population and Special Education students comprise 13% of the population. Communities in the District include many households that function at a poverty level as indicated by a 2023 Federal Free and Reduced Lunch rate of 53% across all schools in the district.

The financial performance of the District has been affected by a variety of economic factors including changes in the way public schools are funded and the reallocation of the distributions in specific line items and categories by the state. After several years of decreases in funding due to declining enrollment and the economy, the district has seen an increase in revenues in recent years, allowing the district to increase staff to the levels allowed by state funding. Exhibit 7 provides enrollment and certified staff data for the years encompassing 2008-2024.

In accordance with the Negotiated Agreement for the 2023-2024 school year, the certificated salary schedule had 3 Residency rungs, 6 Proficiency rungs, and 4 Advanced Proficiency rungs with a \$2,000 and \$3,500 increment for credits of BA+24 or MA respectively. Additional loyalty bonuses for 20 years, 25 years and 30+ years. The Certificated Salary Schedule for the 2023-2024 was based on a 171-day contract.

Contacting the School District's Financial Management Team

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the School District's finances and to show the District's ongoing accountability for the money it receives. If you have questions about this report or need additional financial information please contact the business office at the District Service Center at (208) 436-4727 or 310 10th St., Rupert, Idaho 83350.

Notes to the Financial Statements For the Year Ended June 30, 2024

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Minidoka Joint School District #331 have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to school districts. The significant accounting policies of the District are described below.

A. Reporting Entity

Minidoka Joint School District #331 provides public school educational services as authorized by Section 33-201 through 33-1803 of the Idaho Code. The District's boundaries for taxing and school enrollment purposes are in Minidoka, Cassia, Jerome, and Lincoln Counties.

Factors used in defining the reporting entity were as follows: Minidoka Joint School District #331 was established under the laws of the State of Idaho which designates the Board of Trustees as the governing authority. Members of the Board of Trustees are elected by the public. The Board of Trustees has control over the superintendent and management, and also has the authority to purchase equipment and other fixed assets, and to levy taxes. The Board of Trustees has the power to establish annual budgets subject to public input from patrons, is responsible for funding deficits and operating deficiencies, and has the authority to borrow funds or issue bonded indebtedness.

The conclusion of the above criteria is that Minidoka Joint School District #331 is an independent school district in the State of Idaho, operating under an autonomous Board of Trustees constituting a Local Educational Agency form of government.

In the evaluation of how to define the District, for the financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made using criteria set forth in the accounting principles generally accepted in the United States of America. All funds and activities of Minidoka Joint School District #331 are included in the basic financial statements. Using the above criteria, the District has no component units.

B. Government Wide Financial Statements

The District's basic financial statements include both government-wide (reporting the district as a whole) and fund financial statements (reporting the District's funds). Both government-wide and fund financial statements categorized primary activities as either governmental or business type. Currently, all the District's activities are categorized as governmental type.

In the government-wide Statement of Net Position, the governmental activities columns are (a) presented on a consolidated basis by column and (b) reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The District's net position reported in three parts; (1) invested in capital assets, net of related debt (when related debt exists), (2) restricted for other purposes (resulting from special revenue and capital projects funds and the restrictions on their net asset use) and (3) unrestricted net position.

Notes to the Financial Statements For the Year Ended June 30, 2024

The government-wide Statement of Activities reports both the gross and net cost of each of the District's functions. The functions are also supported by general government revenues (taxes, certain intergovernmental revenues, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Program revenues must be directly associated with the function. Internal activity between funds is eliminated in the government-wide Statement of Activities.

The District reports expenditures in accordance with the State Department of Education's Idaho Financial Accounting Reporting Management System (IFARMS). IFARMS categorizes all expenditures by function, program and object. Accordingly, there is no allocation of indirect costs.

The net costs (by function) are normally covered by general revenue.

This government-wide focus is more on the sustainability of the District as an entity and the change in the District's net assets resulting from the current year's activities. Fiduciary funds are not included in the government-wide statements.

C. Fund Financial Statements

The financial transactions of the District are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues and expenditures/expenses. The various funds are reported by generic classification within the financial statements, which may include Governmental Funds, Proprietary Funds, and Fiduciary Funds. For governmental and proprietary funds, the focus on the funds financial statements is on major funds, which represent the District's most important funds as based on a percentage of assets, liabilities, revenues, and expenditures. Currently, the District has no proprietary funds. Governmental and Fiduciary Funds of the District are as follows:

General Fund:

The General fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. Thus, it is considered a major governmental fund.

Special Revenue Funds:

The Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

Food Service Fund:

The Food Service Fund, which serves to account for providing nutritional meals to students (including subsidized meals), is considered a major governmental fund.

Plant Facility Fund:

The Plant Facility Fund is used to account for payments of the District's long-term debts. It is considered a major governmental fund.

Notes to the Financial Statements For the Year Ended June 30, 2024

Fiduciary Funds

Private Purpose Trust Funds:

The Private Purpose Trust Funds are used to account for the assets, and related income producing and disbursement activities, for which the District acts as a trustee.

The District maintains the following private purpose trust funds:

Birrer Scholarship Fund Private Scholarship Donation

Agency Fund:

The Agency Fund is used to account for assets held by the District on behalf of others.

The District has no agency funds at year end.

D. Measurement Focus, Basis of Accounting, and Financial Statement Presentation
Basis of accounting refers to the point at which revenues or expenditures are recognized in the
accounts and reported in the financial statements. It relates to the timing of the measurements
made regardless of the measurement focus applied.

Activities in the government-wide and fiduciary funds financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (when they become both measurable and available). Measurable means the amount of the transaction can be determined and available means collectible within the current period or soon enough thereafter (sixty days) to be used to pay liabilities of the current period. Expenditures are recorded when the related fund liability is incurred. The exception to this general rule is that principal and interest on long-term debt, if any, is recognized when due and payable. Those revenues susceptible to accrual are property taxes, State and Federal assistance and earnings on investments. Penalties and interest on delinquent property taxes are not susceptible to accrual because generally they are not measurable until received in cash.

The District reports deferred inflows of resources on its governmental funds balance sheet. Deferred inflows of resources arise when potential revenue does not meet both the measurable and available criteria for recognition in the current period. In subsequent periods, when both revenue recognition criteria are met, the revenue is recognized. Additionally, for both the government-wide and funds financial statements, certain grant revenues are only recognized to the extent they have been used for qualifying expenditures; any excess revenues are thus reported as unavailable revenue.

Budgets

Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. Annual appropriated budgets are adopted for all governmental funds. Encumbrance accounting and reporting is not utilized.

Notes to the Financial Statements For the Year Ended June 30, 2024

Property Taxes - Unavailable Revenue

Property taxes are levied by the second Monday in September, in conformity with Title 31, Section 1605, of the Idaho Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before December 20 and June 20 of the year following the year in which imposed. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available when they become due or past due and receivable within the current period and those expected to be collected during a 60 day period after the close of the fiscal year.

The unavailable revenue account in the General Fund represents the taxes receivable more than 60 days after year end. Unavailable revenues in the Special Revenue Funds are grant monies received but not yet authorized to be spent.

Inventories

Paper and food service inventory balances are immaterial at year end and are expensed as incurred.

Capital Assets and Depreciation

Capital assets purchased or acquired with an original cost of \$5,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets (exclusive of land) is provided on the straight-line (SL) method over the following estimated useful lives:

Buses (SL) 10 years
Other Vehicles (SL) 8 years
Equipment, Furniture & Fixtures (SL) 5-20 years
Buildings (SL) 40 years
Land Improvements (SL) 15-20 years

Long-Term Liabilities

For government-wide reporting, material bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method, which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Issuance costs are recognized in the period that the bonds are issued.

For fund financial reporting, bond premiums and discounts, as well as issuance costs are recognized in the period the bonds are issued. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuance are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures.

Pensions

For purposes of measuring the net pension liability and pension expense, information about the fiduciary net position of the Public Employee Retirement System of Idaho Base Plan (Base Plan) and additions to/deductions from Base Plan's fiduciary net position have been determined on the same basis as they are reported by the Base Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Notes to the Financial Statements For the Year Ended June 30, 2024

Deferred Outflows/Inflows of Resources

The School District has implemented GASB No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position and No. 65, Items Previously Reported as Assets and Liabilities. These new standards establish accounting and financial reporting for deferred outflows/inflows of resources and the concept of net position as the residual of all other elements presented in a Statement of Net Position.

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The School District has one item that qualifies for reporting in this category. This items only arises under the full accrual basis of accounting. Accordingly, this item, Deferred Outflow of Resources From Pensions, is reported only on the Statement of Net Position.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of fund balance that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. Unavailable revenue is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes and these amounts are deferred and will be recognized as an inflow of resources in the period in which the amounts become available. Deferred Outflow of Resources From Pensions is only reported in the government-wide financial statements. The Statement of Net Position report defers pension cost, which will be recognized as an inflow of resources in the period in which the amounts are applied. The other item, deferred gain on bond refunding, is only reported on the government-wide Statement of Net Position. A deferred gain on refunding results from the difference in the carrying value of the refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

Net Position

Net position is the difference between assets and liabilities. Net investment in capital assets, net of related debt are capital assets, less accumulated depreciation and any outstanding debt related to the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are legal limitations that are imposed on their use by the District, or external restrictions by other governments, creditors or grantors. When expenses are incurred for purposes for which both restricted and unrestricted net position is available, restricted resources are applied first.

Fund Balance Reserves

Reservations of the ending fund balance indicate the portions of fund balance not appropriable for expenditure or amounts legally or contractually segregated for a specific future use. The District's policy is to use restricted resources first when both restricted and unrestricted resources are available for a particular expense.

Teachers Contracts

Contracts for teachers' salaries are payable in twelve monthly installments beginning in September. At June 30, the liability for the remaining two months of the current contracts and associated contracted benefits is accrued.

Notes to the Financial Statements For the Year Ended June 30, 2024

Implementation of GASB Statement No. 87

As of July 1, 2021, the District adopted GASB Statement No. 87, Lease Accounting. The objective of this Statement is to improve the identification of leasing activities for accounting and financial reporting purposes and how those activities should be reported. The Statement requires that a right of use asset and lease liability be recorded in the Statement of Net Position in the year of adoption. The District reported all lease activity in the Statement of Net Position. The District has determined that the cumulative effect on the beginning balances in the Statement of Net Position was immaterial to the financial statements.

E. Fund Classifications

Fund Balance Reserves - The District has adopted GASB Statement No. 54 "Fund Balance Reporting and Governmental Fund Type Definitions". This Statement establishes criteria for classifying governmental fund balances into specifically defined classifications. Classifications are hierarchical and are based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in the funds may be spent. Application of the Statement requires the District to classify and report amounts in the appropriate fund balance classifications. The District's accounting and finance policies are used to interpret the nature and/or requirements of the funds and their corresponding assignment of restricted, committed, assigned or unassigned.

The District reports the following classifications as applicable:

Non-spendable Fund Balance - Non-spendable fund balances are amounts that cannot be spent because they are either: (a) not in spendable form - such as inventory or prepaid insurance, or (b) legally or contractually required to be maintained intact - such as a trust that must be retained in perpetuity.

Restricted Fund Balance - Restricted fund balances are amounts that cannot be spent because they are either: (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation. Restrictions are placed on fund balances when legally enforceable legislation establishes a specific purpose for the funds. Legal enforceability means that the District can be compelled by an external party (e.g. citizens, public interest groups, the judiciary) to use resources created by enabling legislation only for the purposes specified by the legislation.

Committed Fund Balance - Committed fund balances are amounts that can only be used for specific purposes as a result of constraints imposed by the Board of Trustees. Amounts in the committed fund balance classification may be used for other purposes with appropriate due process by the Board of Trustees. Committed fund balances differ from restricted balances because the constraints on their use do not come from outside parties, constitutional provisions, or enabling legislation.

Notes to the Financial Statements For the Year Ended June 30, 2024

Assigned Fund Balance - Assigned fund balances are amounts that are constrained by the District's intent to be used for specific purposes, but are neither restricted nor committed. Intent is expressed by: (a) the secretary/treasurer, or (b) an appointed body (e.g. a budget or finance committee) or an official to which the Board of Trustees have delegated the authority to assign, modify, or rescind amounts to be used for specific purposes. Assigned fund balance includes: (a) all remaining amounts that are reported in governmental funds (other than the general fund) that are not classified as non-spendable, restricted, or committed, and (b) amounts in the general fund that are intended to be used for a specific purpose. Specific amounts that are not restricted or committed in a special revenue, capital projects, debt service, or permanent fund, are assigned for purposes in accordance with the nature of their fund type. Assignment within the general fund conveys that the intended use of those amounts is for a specific purpose that is narrower than the general purposes of the District itself.

Unassigned Fund Balance - Unassigned fund balance is the residual classification for the general fund. This classification represents general fund balance that has not been assigned to other funds, and that has not been restricted, committed, or assigned to specific purposes within the general fund.

NOTE 2: LEGAL COMPLIANCE - BUDGETS

The District is required by state law to adopt annual budgets for the General Fund, Special Revenue Funds, Debt Service Fund, and Capital Projects Fund. Each budget is presented on the modified accrual basis of accounting which is consistent with generally accepted accounting principles (GAAP).

The following procedures are followed in establishing the budgetary data reflected in the financial statements:

- 1. The District posts a notice of the budget hearing ten days prior to holding the hearing and the notice is also published in the official newspaper for the county.
- 2. Public hearing is held to obtain taxpayers' comments.
- 3. The Budget is officially adopted at the annual hearing of the Board.
- 4. Prior to July 15, the final budget is filed with the State Department of Education.

NOTE 3: CASH AND INVESTMENTS

Cash and Certificates of Deposit

Deposits (cash and certificates of deposit) are carried at cost which approximates market value except for outstanding checks which had not cleared the accounts by the fiscal year end. The District's deposits consisted of the following at year end:

Governmental	Fiduciary
Funds	Funds
\$3,078,855	\$39,228
-	_
\$3,078,855	\$39,228
\$2,333,905	\$39,228
	Funds \$3,078,855 - \$3,078,855

Notes to the Financial Statements For the Year Ended June 30, 2024

Investments are stated at fair value, as determined by quoted market prices to the extent available, except for certificates of deposits noted above. Interest is earned and allocated on a basis of average investment balance. Idaho code provides authorization for the investment of idle funds consistent with Idaho State Code 67-1210 and 67-1210A.

Idaho Code limits investments to the following general types:

- 1. Certain revenue bonds, general obligation bonds, local improvement district bonds and registered warrants of state and local government entities.
- 2. Time deposit accounts, tax anticipation and interest-bearing notes.
- 3. Bonds, treasury bills, debentures, or other similar obligations of the United States Government and United States Government Agencies.
- 4. Repurchase agreements secured by items 1-3.

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

Investments held at year end stated at fair value:

			i ali valuc
	Govern. Funds	<u>Rating</u>	<u>Hierarchy</u>
LGIP	\$6,036,072	Unrated	Level 1

The Local Government Investment Pool (LGIP) is managed by the State of Idaho Treasurer's office. The funds of the pool are invested in certificates of deposit, repurchase agreements, and U.S. government securities. The certificates of deposit are federally insured. The U.S. government securities and the collateral for the repurchase agreements are held in trust by a safekeeping bank.

Fair Value

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the District will not be able to recover its deposits or will not be able to recover collateral securities that are in possession of an outside party. Custodial credit risk for investments is the risk that in the event of the failure of the counterparty (e.g. broker-dealer) to a transaction, the District will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The District does not have a policy restricting the amount of deposits and investments subject to custodial credit risk.

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization such as Moody's or Standard & Poor's. The investments of the District at year end are not required to be rated. The District does not have a policy regarding credit risk.

Interest rate risk is the risk that changes in market interest rates will adversely impact the fair value of an investment. Investments that are fixed for longer periods are likely to experience greater variability in their fair values due to future changes in interest rates. At year end, the District is not subject to interest rate risk as all investments are held in the LGIP which has a maturity of 91 days. The District does not have a policy regarding interest rate risk.

Notes to the Financial Statements For the Year Ended June 30, 2024

Concentration of credit risk is the risk that concentration of investments with one issuer represents heightened risk of potential loss. No specific percentage identifies when concentration risk is present. The Governmental Accounting Standards Board has adopted a principal that governments should provide note disclosure when five percent of the total investments of the entity are concentrated in any one issuer. Investments in obligations specifically guaranteed by the U.S. government, mutual funds, and other pooled investments are exempt from disclosure. The District has no policy limiting the amount it may invest in any one issuer.

NOTE 4: STATE RECEIVABLE

The State receivable amount represents the final 2023-2024 apportionment of State funds for the School District along with state grant receivables.

NOTE 5: FEDERAL RECEIVABLE

The federal government provides resources for certain programs conducted by the School District (e.g., school lunch, title and migrant programs). Each program is funded separately and distinctly, e.g., some are dollar amount requests of approved funds while others are dollar amount reimbursements for expenditures incurred. The amounts receivable represent accrual for reimbursement of program expenditures financed temporarily by other Special Revenue Funds.

NOTE 6: STATE RECEIVABLE

Unearned revenue, as of June 30, 2024, consists of grant and Medicaid funds received but not yet expended.

NOTE 7: TAXES RECEIVABLE

Minidoka, Cassia, Jerome, and Lincoln counties serve as collecting agents for taxes levied by the School District. Property taxes are certified to the County officials each September and recorded on the books of each county as taxes owing during the month of November. Taxes are due in two installments at December 20 and June 20 following the levy date.

Taxes receivable are stated at taxes levied less amounts collected and canceled. The Counties maintain individual taxpayer records. Because the County has the right to take tax deeds on property for the collection of real property taxes, no allowance for uncollectible taxes receivable has been established. Deferred revenue has been recorded as recommended by NCGA Interpretation #3 - "Revenue Recognition" for collections 60 days after year end.

County	2023	2022		022 2021		2020		Total		
Minidoka	\$ 899,625	\$	25,853	\$	9,859	\$		-	\$	935,337
Cassia	22,231		493		514			-		23,238
Jerome	25,473		464		-			-		25,937
Lincoln	 10,785		-		-			-		10,785
Total	\$ 958,114	\$	26,810	\$	10,373	\$		-	\$	995,297

NOTE 8: CAPITAL ASSETS

All purchased capital assets are valued at cost when historical records are available. When no historical records are available, fixed assets are valued at estimated historical cost. Fixed asset activity for the 2023-2024 fiscal year is reflected as follows:

Notes to the Financial Statements For the Year Ended June 30, 2024

Governmental Activities					
	6/30/2023	Additions	Deletions		6/30/2024
Capital Assets, not Depreciated:

NOTE 9: LONG-TERM DEBT

A summary of changes in general long-term debt is as follows:

	Balance at			Balance at
	June 30, 2023	Additions	Reductions	June 30, 2024
Series 2014 GOB bonds	5,945,000	-	(1,400,000)	4,545,000
Series 2016 GOB bonds	1,705,000	-	(260,000)	1,445,000
2018 Bus Lease	-	-	-	-
2019 Bus Lease	65,451	-	(65,451)	-
2020 Bus Lease	-	-	-	-
Compensated absences	126,722	-	(53,703)	73,019
Net pension liability	21,217,413	-	(359,972)	20,857,441
Total	\$ 29,059,586	\$ - \$	(2,139,126)	\$ 26,920,460

Payments on the general obligation bonds are made by the debt service fund from property taxes and earnings on investments. Vacation and other post-employment benefits will be paid by the fund in which the employee works.

Notes to the Financial Statements For the Year Ended June 30, 2024

NOTE 10: GENERAL OBLIGATION BONDS

Series 2014 - General Obligation Bonds

In 2014, the District issued \$10,770,000 General Obligation Bonds to advance refund term bonds in the amount of \$10,820,000. The general obligation bonds were issued at a premium of \$1,113,414 and, after paying issuance costs of \$147,702, the net proceeds were \$11,735,712. The net proceeds from the issuance of the general obligation bonds were used to purchase U.S. government securities and those securities were deposited in an irrevocable trust with an escrow agent to provide debt service payments until the term bonds are called. The advance refunding met the requirements of an in-substance debt defeasance and the term bonds were removed from the school districts government wide financial statements. The District was funded by these bonds on April 17, 2014. Terms of the bonds are payments every August 15 and February 15 through the year 2026 with a true interest costs ranging from 1.38% to 4%.

The reacquisition price exceeded the net carrying amount of the old debt by \$50,000. This amount is reported as a deferred outflow of resources and amortized over the remaining life of the refunding debt. The District advance refunded the general obligation bonds to reduce its total debt service payments by \$771,771 to obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$656,280. Future payments on the bond are as follows:

Year Ending			
June 30	Principal	Interest	Total
2025	\$ 1,455,000	\$ 152,700	\$ 1,607,700
2026	1,515,000	93,300	1,608,300
2027	1,575,000	31,500	1,606,500
Total	\$ 4,545,000	\$ 277,500	\$ 4,822,500

Series 2016 - General Obligation Bonds

In 2016, the District issued \$2,650,000 General Obligation Bonds to advance refund term bonds in the amount of \$2,665,000. The general obligation bonds were issued at a premium of \$381,103 and, after paying issuance costs of \$88,562, the net proceeds were \$2,942,541. The net proceeds from the issuance of the general obligation bonds were used to purchase U.S. government securities and those securities were deposited in an irrevocable trust with an escrow agent to provide debt service payments until the term bonds are called. The advance refunding met the requirements of an insubstance debt defeasance and the term bonds were removed from the school districts government wide financial statements. The District was funded by these bonds on May 25, 2016. Terms of the bonds are payments every September 15 and March 15 through the year 2028 with a true interest cost of 3.406%.

The reacquisition price exceeded the net carrying amount of the old debt by \$50,000. This amount is reported as a deferred outflow of resources and amortized over the remaining life of the refunding debt. The District advance refunded the general obligation bonds to reduce its total debt service payments by \$771,771 to obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$656,280. Future payments on the bond are as follows:

Notes to the Financial Statements For the Year Ended June 30, 2024

Year Ending June 30	Principal	Inter	est	Total	
2025	 270,000	4	0,650	310,650	0
2026	280,000	3	1,050	311,050	0
2027	290,000	2	2,500	312,500	0
2028	300,000	1	3,650	313,650	0
2029	305,000		4,575	309,57	5
Total	\$ 1,445,000	\$ 11	2,425	\$ 1,557,42	5

NOTE 11: ACCOUNTS PAYABLE

Accounts payable consist of goods and services acquired prior to the fiscal year end and approved for payment by the School District's July School Board Meeting.

NOTE 12: SALARIES AND CONTRACTS PAYABLE

It is the policy of the School District to pay contracted personnel over a 12-month period beginning July, August or September (depending on the time of starting their position). Since the fiscal year ends June 30 and most of the personnel have completed their contract, an outstanding obligation of funds is required to be paid in July and August following the fiscal year end. Included, along with salaries, are accrued employee benefits for health, dental, life insurance, retirement, unused personal leave benefit, and payroll taxes on the contracted balance of salaries for the 2022 fiscal school year.

NOTE 13: ACCRUED VACATION PAY

School District employees are granted vacation and sick leave in varying amounts. Vacation days are for full-time classified and certified employees who are assigned a twelve-month work schedule. Vacation days are earned after one year of continuous employment and are granted based on years of employment. If there are unused vacation days at the end of the year, up to five days can be carried to the next year. The maximum that can be earned in any year is 20 days for employees who have been with the District in excess of twenty-one years. The Board of Directors occasionally exempts this policy under special circumstances. In the event of termination, an employee is reimbursed for accumulated vacation days up to 25 days. Amounts accrued for vacation pay will be provided out of future resources of the School District.

Also, employees are given four days of personal leave per fiscal year. Personal leave days not used at the end of the fiscal year can be paid as additional compensation to the employee at year end. Any unpaid personal leave benefit has been accrued with salaries and contracts payable.

NOTE 14: LONG-TERM LEASE PAYABLE

The District had the no long-term leases outstanding as of June 30, 2024.

Notes to the Financial Statements For the Year Ended June 30, 2024

NOTE 15: PENSION PLAN

<u>Plan Description</u> - The District contributes to the Base Plan which is a cost-sharing multiple-employer defined benefit pension plan administered by Public Employee Retirement System of Idaho (PERSI or System) that covers substantially all employees of the State of Idaho, its agencies and various participating political subdivisions. The cost to administer the plan is financed through the contributions and investment earnings of the plan. PERSI issues a publicly available financial report that includes financial statements and the required supplementary information for PERSI. That report may be obtained on the PERSI website at www.persi.idaho.gov.

Responsibility for administration of the Base Plan is assigned to the Board comprised of five members appointed by the Governor and confirmed by the Idaho Senate. State law requires that two members of the Board be active Base Plan members with at least ten years of service and three members who are Idaho citizens not members of the Base Plan except by reason of having served on the Board.

<u>Pension Benefits</u> - The Base Plan provides retirement, disability, death and survivor benefits of eligible members or beneficiaries. Benefits are based on members' years of service, age, and highest average salary. Members become fully vested in their retirement benefits with five years of credited service (5 months for elected or appointed officials). Members are eligible for retirement benefits upon attainment of the ages specified for their employment classification. The annual service retirement allowance for each month of credited service is 2.0% of the average monthly salary for the highest consecutive 42 months.

The benefit payments for the Base Plan are calculated using a benefit formula adopted by the Idaho Legislature. The Base Plan is required to provide a 1% minimum cost of living increase per year provided the Consumer Price Index increases 1% or more. The PERSI Board has the authority to provide higher cost of living increases to a maximum of the Consumer Price Index movement or 6%, whichever is less; however, any amount above the 1% minimum is subject to review by the Idaho Legislature.

<u>Member and Employer Contributions</u> - Member and employer contributions paid to the Base Plan are set by statute and are established as a percent of covered compensation. Contribution rates are determined by the PERSI Board within limitations, as defined by state law. The Board may make periodic changes to employer and employee contribution rates (expressed as percentages of annual covered payroll) that are adequate to accumulate sufficient assets to pay benefits when due.

The contribution rates for employees are set by stature at 60% of the employer rate. As of June 30, 2023 it was 7.16%. The employer contribution rate is set by the Retirement Board and was 11.94% of covered compensation. The District's contributions were \$3,030,576 for the year ended June 30, 2024.

Pension Liabilities, Pension Expense (Revenue), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

Notes to the Financial Statements For the Year Ended June 30, 2024

At June 30, 2024, the District reported a liability for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the Employer's share of contributions in the Base Plan pension plan relative to the total contributions of all participating PERSI Base Plan employers. At June 30, 2023 and 2022, the District's proportion was .52265505 percent and .5386828 percent, respectively.

For the year ended June 30, 2024, the District recognized pension expense (revenue) of \$5,591,119. At June 30, 2024, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred		Deferred		
	Outflows of		Inflows of		
	Resources	Resources			
Differences between expected and actual experience	\$ 3,575,123	\$	=		
Changes in assumptions or other inputs	2,065,326				
Net difference between projected and actual earnings on					
pension plan investments	1,957,778		-		
Changes in the employer's proportion and differences between					
the employer's contributions and the employer's proportionate					
contributions	42,597		329,046		
District contributions subsequent to the measurement date	3,030,576		-		
Total	\$ 10,671,400	\$	329,046		

The \$3,030,576 reported as deferred outflows of resources related to pensions resulting from Employer contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2024.

The average of the expected remaining service lives of all employees that are provided with pensions through the System (active and inactive employees) determined at July 1, 2022 the beginning of the measurement periods ended June 30, 2022 4.6 and 4.6 for the measurement period June 30, 2023.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense (revenue) as follows:

Year ended	
June 30	
2024	\$ 2,702,094
2025	1,269,788
2026	3,950,119
2027	(323,774)

Notes to the Financial Statements For the Year Ended June 30, 2024

Actuarial Assumptions - Valuations are based on actuarial assumptions, the benefit formulas, and employee groups. Level percentages of payroll normal costs are determined using the Entry Age Normal Cost Method. Under the Entry Age Normal Cost Method, the actuarial present value of the projected benefits of each individual included in the actuarial valuation is allocated as a level percentage of each year's earnings of the individual between entry age and assumed exit age. The Base Plan amortizes any unfunded actuarial accrued liability based on a level percentage of payroll. The maximum amortization period for the Base Plan permitted under Section 59-1322, Idaho Code, is 25 years.

The total pension liability in the June 30, 2022 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.30% Salary increases including inflation 3.05%

Investment rate of return 6.35%, net of investment expenses

Cost-of-living adjustments 1%

Contributing Members, Service Retirement Members, and Beneficiaries

General Employees and All Beneficiaries Males Pub 2010 General Tables, increased 11%.

General Employees and All Beneficiaries Females Pub 2010 General Tables, increased 21%.

Teachers Males Pub 2010 Teacher Tables, increased 12%.

Teachers Females Pub 2010 Teacher Tables, increased 21%.

Fire & Police Males Pub 2010 Safety Tables, increased 21%.

Fire & Police Females Pub 2010 Safety Tables, increased 26%.

Disabled Members Males Pub 2010 Disabled Tables, increased 38%.

Disabled Members Females Pub 2010 Disabled Tables, increased 36%.

Assumptions used to calculate the enclosed figures are described in our 2021 Experience Study. The Total Pension Liability as of June 30, 2021 is based on the results of an actuarial valuation date July 1, 2021.

The long-term expected rate of return on pension plan investments was determined using the building block approach and a forward-looking model in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Even though history provides a valuable perspective for setting the investment return assumption, the System relies primarily on an approach which builds upon the latest capital market assumptions. The assumptions and the System's formal policy for asset allocation are shown below. The formal asset allocation policy is somewhat more conservative than the current allocation of PERSI's System's assets. The best-estimate range for the long-term expected rate of return is determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation.

Notes to the Financial Statements For the Year Ended June 30, 2024

<u>Discount Rate</u> - The discount rate used to measure the total pension liability was 6.35%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate. Based on these assumptions, the pension plans' net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term expected rate of return was determined net of pension plan investment expense but without reduction for pension plan administrative expense.

Sensitivity of the Employer's proportionate share of the net pension liability to changes in the discount rate - The following presents the Employer's proportionate share of the net pension liability calculated using the discount rate of 6.35 percent, as well as what the Employer's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.35 percent) or 1-percentage-point higher (7.35 percent) than the current

	Current					
	1% Decrease	Discount Rate	1% Increase			
	(5.35%)	(6.35%)	(7.35%)			
Employer's proportionate share of the net						
pension liability (asset)	\$ 37,512,967	\$ 20,857,441	\$ 72,455			

<u>Pension plan fiduciary net position</u> - Detailed information about the pension plan's fiduciary net position is available in the separately issued PERSI financial report.

PERSI issues a publicly available financial report that includes financial statements and the required supplementary information for PERSI. That report may be obtained on the PERSI website at www.persi.idaho.gov.

NOTE 16: COMMITMENTS & CONTINGENCIES

The District participates in numerous state and federal grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustments by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectability of any related receivable at June 30, 2024, may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying combined financial statements for such contingencies.

NOTE 17: RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District has transferred most of its risk by purchasing commercial insurance through the Idaho School Board Association Insurance Plan.

As of June 30, 2024, the District was party to various lawsuits. As noted above, the District has purchased insurance to cover potential risk of loss related to these specific cases. It is the District's position based on the circumstances of each case that all potential losses would be covered by insurance. The ultimate resolution of these cases was undeterminable as of the report date.

Notes to the Financial Statements For the Year Ended June 30, 2024

NOTE 18: NON-MONETARY TRANSACTIONS

During the fiscal year ending June 30, 2024, the District received \$100,735 in commodities from the United States Department of Agriculture.

NOTE 19: RELATED PARTY TRANSACTIONS

The District identified no related party transactions during the fiscal year ending June 30, 2024.

NOTE 20: EXCESS OF EXPENDITURES OVER BUDGET

The following funds had an excess of function expenditures over budget for the year ended June 30, 2024:

Debt Service Fund

Food Service Fund

Idaho Career Ready Students Grant Fund

Professional Technical State

Public School Technology Fund

ESSER III ARPA

Title I-C Migrant

Title I-D ESEA Neglected & Delinquent Children

Title VI-B IDEA Special Education APPA

Perkins III Professional Technical Act

IDEA Mini-Grants

Stronger Connections Grants

COPS Security Grant

Homeless Sub Grant

NOTE 21: INTER-FUND TRANSFERS

Inter-fund transfers during the year were made for the following purposes:

		Transfer	
Transfer from Fund	Purpose	To Fund	Amount
General Fund	Program cost transfer	Title I-A	26,730
Genearl Fund	Supplemental levy	Plant Facility	409,418
General Fund	Benefits match	Food Service	66,250
Title I-A	Indirect cost transfer	General	31,800
Title I-C	Indirect cost transfer	General	12,185
Title VI-B	Indirect cost transfer	General	19,617
Title VI ESEA	Indirect cost transfer	General	 2,086
Total			\$ 568.086

All of the inter-fund transfers were budgeted.

Notes to the Financial Statements For the Year Ended June 30, 2024

NOTE 22: INTERFUND RECEIVABLES AND PAYABLES

		Interfund	
Interfund Payable	Purpose	Receivable	Amount
Drivers Ed	Pooled Cash	General	45,042
ESSER III	Pooled Cash	General	202,107
Title I-A	Pooled Cash	General	1,077,086
Title I-C ESEA Migrant	Pooled Cash	General	449,681
Title I-D ESEA	Pooled Cash	General	96,137
Title VI-B IDEA Special Ed	Pooled Cash	General	315,150

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Superintendent and Board of Trustees Minidoka Joint School District No. 331

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Minidoka Joint School District No. 331 (the District), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated February 28, 2025.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Superintendent and Board of Trustees Minidoka Joint School District No. 331

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Minidoka Joint School District No. 331's (the "District") compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2024. Minidoka Joint School District No. 331's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Minidoka Joint School District No. 331 complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Minidoka Joint School District No. 331 and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting

material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

MINIDOKA JOINT SCHOOL DISTRICT #331

Notes to Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2024

NOTE 1: Basis of Presentation

The accompanying schedule of expenditures of federal awards (the schedule) includes the federal award activity of Minidoka Joint School District #331 (the District) under programs of the federal government for the year ended June 30, 2024. The information is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position of the District.

NOTE 2: Summary of Significant Accounting Policies

This schedule was prepared using the modified accrual basis of accounting, which is consistent with the method used in the preparation of the District's financial statements.

NOTE 3: Indirect Cost Rate

The District has not elected to use the 10% de minimis cost rate.

MINIDOKA JOINT SCHOOL DISTRICT #331

Schedule of Findings and Questioned Costs-Federal Awards For the Year Ended June 30, 2024

I. SUMMARY OF AUDIT RESULTS:

- 1 The auditor's report expresses a qualified opinion on the basic financial statements of Minidoka Joint School District #331.
- 2 There were no material weaknesses disclosed during the audit of the basic financial statements of the District.
- 3 No instances of noncompliance material to the basic financial statements of the District were disclosed during the audit.
- 4 The auditor's report on compliance for the major federal award programs for the District expresses an unmodified opinion on all major federal programs.
- 5 The following were tested as major programs:

Little	CFDA #
Title I Grants to Local Educational Agencies	84.010
COVID-19 - Education Stabilization Fund	84.425D

- 6 The threshold for distinguishing Types A and B programs was \$750,000.
- 7 The District was determined to be a high-risk auditee.
- 8 The audit did not disclose any material weaknesses in internal control over major programs.
- 9 There were no audit findings that are required to be reported in accordance with the Uniform Guidance.

II. FINANCIAL STATEMENT FINDINGS:

There were no findings or questioned costs in the financial statements

III. FEDERAL AWARD FINDINGS

There were no findings or questioned costs in any of the federal award programs.
