Waiver to Transfer Eligibility of Town Center’s Title I Program from a Targeted Assisted Program to a Schoolwide Program

State requirements mandate that school boards must approve the transfer of eligibility of Title I programs. Town Center is currently a Targeted Assisted program and currently meets the state requirements for the Schoolwide program.

We are requesting that this waiver be approved.

The benefit of the Schoolwide approach is the flexibility in implementing school improvement initiatives. Town Center will be able to spend title funds on programs that improve the academic performance of low-achieving students by offering programs for all students; not just for students who qualify for federal assistance. Targeted Assisted programs stipulate that federal dollars must be spent only on students who meet federal assistance requirements. Town Center desires greater flexibility in assisting all students in need.
