

Three Rivers School District

Code: EBC
Adopted: 2/13/06
Orig. Code: EBC

Emergency Procedures Plan and First Aid**

{Highly recommended policy. This policy informs districts about requirement for an emergency procedures plan (OAR 581-022-2225), and other minimum standards for providing emergency care to students.}

~~The Board believes that emergency planning and procedures, safety education and accident prevention are important to everyone concerned with our schools, not only as a protective measure during school hours, but also as an instructional means of developing an appropriate mode of behavior to minimize accidents at all times. Thus, it shall be the policy of the Board to provide for the safety of all students, employees, and members of the public at all times, while they are engaged in school district activities. The Superintendent shall be responsible for developing and implementing a school safety plan and emergency procedure in accordance with district policy.~~

The district will maintain a comprehensive safety program for all employees and students. This program will include a plan for responding to emergency situations. The superintendent will consult with community and county agencies while developing this plan. The district's emergency plan will meet any requirements of the State Board of Education.

Copies of the emergency plan will be available in every school office and other strategic locations throughout the district. Parents or guardians will be informed of the district's plan.

In each district facility, procedures for handling health emergencies will be established and made known to staff. Each district facility and district vehicle will be equipped with appropriate first-aid supplies and equipment. All employees are expected to know where first-aid supplies and equipment are kept in their work areas.

Each school in the district shall have, at a minimum, at least one staff member with a current first-aid/CPR/AED card for every 60 students enrolled and who are trained annually on the district and building emergency plans. Emergency planning will include the presence of at least one staff member with a current first-aid/CPR/AED card for every 60 students for school-sponsored activities where students are present.

The district shall provide instruction to staff and students in the emergency plan and safety program.

END OF POLICY
