

Cameron Elementary School  
Principal's School Board Report  
June 23, 2025

**June 4** - This was the last day of school for students. We honored our 4th grade students, who are moving to middle school, with a 4th grade sendoff. We also honored multiple other groups for their hard work throughout the school year. In the afternoon we were able to celebrate the end of the year with an all school carnival. Thank you to our carnival committee for putting in the time to make this a great way to end the school year.

**June 5** - This was our end of the year inservice day. We started the morning with a district breakfast and honored some of our retirees. We then finished the rest of the day at the elementary school with some meetings and the staff getting ready for summer break.

**June 11/18** - The special education teachers are working on scheduling for the 2025-2026 school year. They will be looking at student caseloads and scheduling paraprofessionals.

**June 9-20** - Our elementary summer school was held June 9-20. We had about 290 students attending summer school. There were a variety of classes that had unique content. Most of the classroom activities, while fun, did work on math or ELA skill building. This year we provided incoming 4K students with a week of summer school. We have about 30 in-coming 4 year olds attending summer school. This will hopefully ease the students mind about the first day of school and will get them acclimated to school expectations. This has been a huge success and I look forward to this being a staple in our summer school programming.

**Student/Family Handbook** - There are no material recommendations for changes to the 2025-26 District staff handbooks. Only hiring updates have or will be changing.

**Achievement Gap Reduction Report** - Separate report will be sent. This will also be given orally at the board meeting. Also, we completed our 5-year contract renewal.
