Description of Request: 1) Beginnings Program for ALL kinder students: This program has been purchased for all our kinder students for the past eight years. It consists of colorful phonetic and fluency practice pages with numerous hands-on activities the children cut and paste right off and onto the workbooks. Each workbook also comes with a home packet children complete for homework and utilize the rest of the week as a practice book on the letter and sound covered that week. This program has been instrumental in preparing our students to read. We have stuck to this program because we noticed significant improvement in our kinder students when we started using the program. While we have cut out our Sing Spell Read and Write program and our math Excel program due to budget cuts, we strongly feel it is critical to continue with the Beginnings Phonics and fluency program for our kinder students.

2) Coleman Re-chargeable Lanterns: although our campus previously (three years ago) purchased flashlights for every classroom in case of a power outage. However, we discovered that they do not give sufficient light in the classrooms in our basement. The rooms are pitch black when the lights are off, and the emergency lights in the hallway do not give off sufficient light at all to the classrooms. We need lanterns that give off a larger range of light inside the classrooms.

Estimated Cost of Request: Beginnings Program: \$9,188.41

Coleman Re-chargeable Lanterns: \$1,049.70 (for downstairs classrooms only = 30)

Estimated Cost of Request: \$10,238.20
