 [Save to Favorites](#)

The annual Summer Leadership Institute (SLI) is the flagship training conference for the Texas Association of School Boards. SLI is designed to meet the needs of school board members, school district personnel, and education service center board members.

You have a choice to attend the Institute that best fits your summer plans: San Antonio or our North Texas location. The schedules, general session speakers, and offerings for newly elected school board members and board officers are exactly the same at both Institutes.

6-8:30 p.m. Pre-Conference (Preregistration and additional \$50 fee required; dinner included):

Governance Decisions That Maximize District Revenue (Extended Session)

Through their governance role, school board members influence both how district dollars are spent and the level of funding districts can generate in support of student outcomes.

In this extended, interactive session led by the Texas Education Agency (TEA), trustees and district leaders will take a deeper dive into the key governance decisions and policy choices that influence district revenue. Using TEA's Local School District Revenue Options resources, participants will examine common areas where districts may not be fully accessing available state funds and explore how decisions related to attendance, enrollment practices, tax rates, exemptions, and action-dependent funding streams can significantly affect overall revenue.

Outcomes

Trustees will leave this session with:

- Increased awareness of state funding sources - both within and outside of a district's direct control and how those sources align with local academic strategies.
- A comprehensive, governance-level checklist and actionable guidance to support more informed budget conversations; and
- A suite of practical tools to support district-level decision-making that maximizes the uptake of available state funds and strengthens the connection between financial decisions and student achievement.

Thursday
