Student Value-Added Growth Score

- *The student growth score is the difference between what the student is expected to achieve, based on prior achievement scores, and what the student achieves in the current year.*
- *We expect students to meet or exceed their expected growth if they are to be ready for college, career, and life.*

School Value-Added Growth Score

School value-added growth scores (VAS) include student growth in the content areas (math and English language arts) as well as student growth in English language proficiency.
