Dear Antoinette,

Way back in June, KKR shared the Alternative Education Evaluation Report, required by the State with the Board. She shared that you had the responsibility in leading this task and added you did one phenomenal job. The Board accepted the Report; we also discussed what an excellent job was done on the Report.

The Board wants you to know how much we appreciated the quality of your work. This Report is important concerning the possible placement of our students; your comprehensiveness and recommendations matter in our students' success. We want you to know the quality of your effort and work is noted and greatly appreciated.
