

April 2025

Dear Umatilla School District Board Members,

The past month has been very exciting. Tina, Nahomy and I attended the National After-school Association conference in Nashville, TN in March. This opportunity is always special and invigorating. We came back with several ideas we want to implement; such as bridging the generational gap, qualities of effective leadership and using AI. Spending time and learning about other programs from across the nation, gives us perspective and validation.

Last weekend, Confidential, our veteran FRC team, competed at the PNW at Eastern Washington University. This team and their coaches and mentors are amazing. Looking forward to the final results. On April 1<sup>st</sup>, or 4-1-25 they had a social gathering to celebrate this once in a lifetime date and the team.

Sincerely,

Stephanie Williams
