**Presented for: Action\_\_**

**Report Only\_X\_**

**Background Information:**

RDA is a data-driven monitoring framework consisting of indicators in three program areas: bilingual education/English as a second language/emergent bilingual (BE/ESL/EB), special education (SPED) and other special populations (OSP). It results in a summative performance level determination issued annually to each LEA, in a range from 1 to 4. The Texas Education Agency uses the determination levels to engage with LEAs in intervention and continuous improvement activities.

**Recommendation:**

No action needed.
