

Site Report – Igiugig School –May, 2022

To: Superintendent Kasie Luke
and LPSD School Board Members

From: Kristin Henke, Head Teacher

Outstanding Activities and Events

Art Institute 2022 was a huge success. Igiugig students produced many wonderful works of art and learned about the concepts and elements of art.

Graduation 2022: Kiara Nelson and Simeon Zackar graduated from Igiugig School. Congratulations to them and best wishes.

Personnel

Jeff B. and Andyn G. have filled in as substitute teachers and aides while Gabbie and Bill were out during several days in April. We are blessed to have excellent substitute teachers available here.

Standards Based System/Curriculum Progress

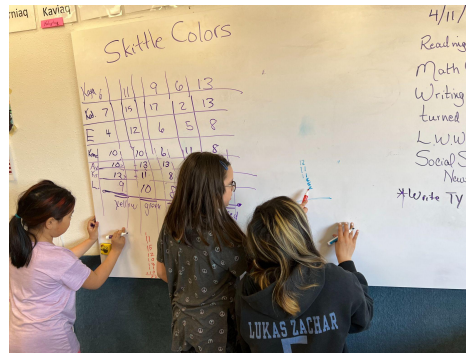

Students buckled down and worked through their end-of-levels during April. They have all gone up in at least two subject areas. We are so proud of their achievements. Students will receive certificates at our Academic Awards event for progressing in their levels.

We LOVE Everyday Math curriculum.

Math Games are played weekly and are a fun way to improve our skills in operations, place-value, geometry, and more.

Skittles Math was a hit for helping us learn how to collect data, create graphs, compare and justify our answers, and present our research.

Students worked together to compare their answers and check for accuracy. Real-life skills.

Technology Progress

Facility Update

Thanks to Carl and Tim for flying in for up-keep and improvements. We are hoping our new teacher housing is ready in July.

LSAC Activity

LSAC is especially supportive with end-of-year activities. Graduation was April 28th, Village Clean-up and picnic was May 3rd.

Volunteer Report

Jeff B. as well as other community members continue to drum, dance, and sing with us on Friday afternoons. We celebrate our culture as the drumbeats speak to our souls and our stories are told through dance.

Professional Development

Pupil Attendance

Our school had better than 90% attendance throughout this past school year. We celebrated with pizza and cupcakes on April 28th and 29th.

Student and Staff Safety

No issues to report

Subsistence Calendar

Primary students accompanied Jeff B. to the hanger to help plant seeds for our village gardens this summer.

Other

Apa'yug Moore hosted a Paint Night at our school. All participants had a great time filled with laughter, good food, excellent art instruction, and general fun.

Diligent adult students joined our younger students in learning how to paint.

Village Cleanup and End-of-School Year picnic is scheduled for Tuesday, May 3rd. EOL achievement certificates and kindergarten graduation will also be celebrated on that day.
