The Board recognizes families provide early and ongoing education to their children, and a strong collaboration between families and schools will ensure students continue to receive the supports they need to thrive and be prepared in school and beyond. The board also believes that partnerships with parents, guardians, and families are an important part of the educational program. Current research indicates a home to school partnership and greater involvement on the part of parents and families in the education of their children generally result in higher achievement scores, improved student behavior and reduced absenteeism. All parents, guardians, family members and foster caregivers have clear and active roles to contribute to the education of their children or foster children. All students can be successful when schools and families partner in children's education.

The District is committed to promoting family engagement as an integral part of the educational experience. Through family engagement we will:

1. Establish a welcoming and inclusive environment that actively encourages family involvement in their child's education.
2. Foster effective communication and collaboration between families, schools, and the community to support student success.
3. Provide resources, training, and opportunities for families to enhance their capacity to support their child's learning and well-being.
4. Provide resources, training, and opportunities for school staff to enhance their capacity to engage in meaningful partnerships with families.
5. Recognize and respect the diverse cultures, backgrounds, and perspectives of all families in our district.

By implementing this Family Engagement Policy, the District aims to strengthen the partnership between parents, guardians, families, schools, and the community, ultimately enhancing student achievement and fostering a supportive educational environment.

In addition, building administrators/designees of schools receiving Title I funds will jointly develop with and distribute to parents of children participating in Title I programs a written parent and family involvement policy and guidelines that increases family interest in partnership and involvement. The requirements of the policy and guidelines are consistent with Federal and State law.

Our learning community believes that the school should maintain a climate in which honesty, integrity, and respect for self and others are highly valued. Definition of Academic Dishonesty:

Academic dishonesty includes but is not limited to cheating, plagiarism, falsifying records, using unauthorized materials or tools, and other forms of academic misconduct.

Responsibilities of Students:

Students are responsible for maintaining academic honesty in all aspects of their academic work. They must complete their own work without assistance unless otherwise directed by the teacher. They must also credit all sources used in their work, including written and online sources, and must not submit work that has been previously submitted for another course, unless expressly allowed by the teacher.

Responsibilities of Staff:

District administrative and teaching staff are responsible for educating students about academic honesty and for creating an environment that promotes academic integrity. They must clearly communicate expectations for assignments and assessments, and take steps to detect and deter academic dishonesty.

Consequences for Academic Dishonesty:

Academic dishonesty will not be tolerated and may result in disciplinary action, including but not limited to a lower grade on an assignment, a failing grade for the course, suspension, or expulsion. Repeat offenders may face more severe consequences.

Reporting Academic Dishonesty:

Students, teachers, and other members of the school community have a responsibility to report

ACADEMIC HONESTY

AR 5131.9(b)

incidents of academic dishonesty. Reports should be made to the teacher, a school administrator, or the district superintendent.

Educational Opportunities:

The district will provide educational opportunities to help students and staff understand the importance of academic honesty and develop the skills needed to avoid academic dishonesty. These opportunities may include workshops, seminars, and other educational resources.

In summary, academic honesty is a fundamental value of education and is critical for maintaining the integrity of the learning process. The district expects all students and staff to maintain academic honesty in all aspects of their academic work, and will take steps to detect and deter academic dishonesty. By following these guidelines, students and staff can contribute to a culture of academic integrity and ensure that the value of education is upheld.

Expanded Definitions

Deriving its root from the word honor, honesty is refraining from lying, cheating; being truthful, trustworthy or upright, sincere, straightforward and fair. The honest person is respected as one who is truthful and trustworthy. They are viewed as being of high moral character or integrity, and honor.

Cheating is defined as obtaining or providing any help on an assignment or test where the intent was that the student complete the assignment or test by himself/herself. The teacher's professional judgment will determine whether cheating has occurred. Students shall not give the instructor cause to consider their actions dishonest.

The following should be considered a sample list of types of cheating that may occur. It is not intended to be all inclusive or comprehensive.

1. Looking at someone else's paper during a test or quiz.
2. Unauthorized talking with another student during a test or quiz.
3. Using any unauthorized "cheat notes."
4. Allowing someone to see or use one's own or another's paper during a test or on any individual assignment.
5. Copying work assigned to be done independently or allowing someone else to copy one's own or another's work. Because individual teachers hold different expectations with regard to homework, it is up to the teacher to clarify their expectations to the students regarding individual assignments.
6. Copying sentences, phrases, or passages from an uncited source while writing a paper or doing research.
7. Giving or receiving any test information.

ACADEMIC HONESTY

AR 5131.9(c)

8. Submitting individual projects or assignments not wholly one's own, with or without the permission of the author. This may also include AI generated information and content downloaded from the internet without citing its source.
9. Fabrication or altering any information or lab data.

Tenets of our Academic Honesty Policy

To be considered when evaluating potential student infractions of the Academic Honesty Policy we strive to:

- Regard each student as an individual, deserving individual attention, consideration and respect.
- Consider the facts fully and carefully before resolving any case.
- Speak candidly and honestly to each student.
- Hold each student to a high standard of behavior, both to protect the integrity of our learning community, and to promote student moral development.
- Recognize the reality of human fallibility, as well as the stresses associated with life, and to demonstrate compassion, understanding, and a sense of humor.

UNIFORM INVESTIGATIONS

AR 5141.43(a)

It is essential to select an investigator free from any personal, professional, or financial conflicts of interest. The investigator must have the skills, knowledge, experience, and time to conduct an appropriate investigation. The investigator should be objective, thorough, ethical, professional, and capable as a writer.

The goal of an administrative investigation is to gather all reasonably available information involving the complaint or allegation. The information gathered must be analyzed to determine whether the complaint or allegation is factual.

If an investigation of allegations is determined to be warranted, then the investigating school administrator must determine what laws, regulations, and/or policies apply to the allegations. It is critical for the investigating school administrator to consult with District legal counsel at this stage. The result of an administrative investigation may be reduced to a comprehensive report of investigation which compiles all relevant statements and evidence obtained through the investigation.

School administrators need to be aware of employees' right to the presence of a union representative during investigatory meetings which could reasonably result in discipline of the employee. These are referred to as Weingarten rights. School administrators should refer to collective bargaining agreements for further details on employees' rights to representation during investigatory meetings.

1. Investigators must be impartial and have the ability to act independently. Investigators should also have the knowledge, skills, and experience to conduct an investigation.
2. An investigation should be conducted and completed in a timely manner, based upon the nature of the investigation.
3. An administrative investigation should be confidential and exempt from disclosure under the Public Records Act, AS 40.25.
4. School administrators should take steps to ensure the safety of students upon receipt of a complaint, including the potential removal of any school-based contact between student(s) and suspected employee(s).
5. Interviews should be conducted in a private setting. Interview questions should be planned in advance, but the interview should allow for a natural flow and follow up on areas. It is critical to allow the interviewee to fully understand and to fully answer questions, as well as offer additional information outside the scope of the interview questions.
6. If the interviews are being recorded, the interviewee should be properly advised. If the interviews are not being recorded, the interviewees should disclose whether or not they are recording the interview. If the interviews are not being recorded, the information provided by witnesses should be documented by the investigator.
7. Interviews should start with rapport building. Accusatory and intimidating tones should be avoided.
8. It is critical not to cut off witnesses. Silence between questions usually results in additional information.
9. At the close of interviews, ask variations of "is there anything else I have not asked you which you believe would be relevant to this investigation?"

UNIFORM INVESTIGATIONS

AR 5141.43(a)

10. Interviewees should be encouraged to report any retaliation and/or any attempts to influence witnesses.
11. Interviewees should be advised the investigation, including the interview and the interview questions are confidential and should remain so.
12. Interviewees should be provided with contact information of the investigator to provide additional information and/or to report any retaliation.
13. Investigators must analyze interviews for credibility, or determining whether witnesses were believable. Investigators should consider whether a witness was motivated to lie, has a history of lying, or showed signs of lying. Investigators should also consider if there is evidence that corroborates witness statements.
14. Investigators should collect, analyze, document and secure physical and digital evidence. For example, class schedules, seating charts, attendance records, student disciplinary records, personnel records, social media posts, digital images and/or video, emails, text messages, and any other reliable evidence.
15. Investigators must then reach a conclusion, and document that conclusion in a written report. The investigation report should include the allegations, the investigation plan, list of evidence collected, factual findings, and recommendations, if requested.
16. The applicable standard of proof for the investigation is an issue that should be discussed with the District's attorney. Depending on the nature of the allegations, the standard of proof could be substantial evidence or preponderance of evidence.
17. The investigation report is confidential and should not be shared with the public. School administrators should develop a communications plan following the conclusion of the investigation.

Note: The following policy may be revised to reflect a local school board's goals and objectives for student achievement. Effective 2014, if a school or subgroup does not meet the four-year or five-year graduation rate, it may qualify for an alternative graduation rate. If 10 or fewer students, after approved adjustments, enrolled in the ninth grade four or five years earlier, then the target graduation rates are satisfied if all but one of those students graduate. The subgroups are identified at 4 AAC 06.830 as follows: 1) students with limited English proficiency; 2) students with disabilities; 3) economically disadvantaged students; 4) African-Americans; 5) Alaska Native and American Indians; 6) students of two or more races; 7) Asians or Pacific Islanders; 8) Hispanics; and 9) whites.

Student Achievement

The School Board recognizes that the key work of school boards is to establish and promote a clear vision of student achievement as the top priority of the district. Student achievement will be defined by the district and include but not be limited to, assessment results, student attendance and drop-out rates, graduation rates, and percentages of students earning certificates of completion and diplomas.

The School Board recognizes that student achievement cannot occur if students do not regularly attend school. For this reason, the School Board sets a target date of ____ [insert year] to achieve an attendance rate of 95% or better for the district's schools and its students.

Graduation represents the culmination of a student's achievement in the district. The School Board believes that all student have the potential to graduate. The Board sets a target date of ____ [insert year] to achieve a graduation rate of 90% or better for the district's schools and its students.

The superintendent will ensure development and implementation of a comprehensive, collaborative planning process that engages the school community in the district's continuous student achievement improvement program efforts to achieve the district's vision and mission.

The district's program will be consistent with the Alaska Department of Education and Early Development requirements for content standards and high school graduation.

The School Board will, in striving for continuous improvement of student achievement, annually review district and individual school data on student achievement, prioritize, allocate and realign resources as necessary.

The superintendent will develop administrative regulations as needed to implement this policy.

BB 9200(a)

Note: The following sample bylaw may be revised to reflect district philosophy and needs.

Limits of Board Members Authority

The School Board has broad but clearly limited powers. The exercise of its authority is restricted to the functions required or permitted by law, and then only when it acts in a legally constituted meeting. Board members have authority only in regularly called meetings of the Board, or when delegated specific tasks by Board action.

The Board is the unit of authority. The Board member is a part of the governing body which represents and acts for the community as a whole. Apart from the normal function as part of the unit, the Board member has no individual authority. No individual member of the Board, by virtue of holding office, shall exercise any administrative responsibility with respect to the schools; nor, as an individual, command the services of any school employee. Individually, the Board member may not commit the district to any policy, act or expenditure.

Optional:

School visits by Board members are encouraged. Principals should receive a courtesy call in advance of a visit. Board members, as with all visitors, must check in with the school office. Board members who visit schools of their own volition have no more authority than any other citizen.

(cf. 1250 - Visits to the Schools)

Note: The following is an optional process for Board members to make information requests.

Board Member Requests for Information

Board members should make informed decisions on matters before them for a vote. The Superintendent or designee is responsible for providing the Board with relevant materials to inform the Board on those matters on which it is to act. If Board members desire further information, a request for information shall be directed to the Superintendent, pursuant to the following guidelines:

1. Requests for simple facts. Any Board member may make a request for simple facts to the Superintendent who will forward the request to the appropriate staff member. All responses to requests for simple facts will be provided to the requesting Board member, and copied to the Board President.

2. Requests for reports, research, administrative studies, detailed information, or for information relating to a problem or a potential problem in the District. Some information requests require significant administrative time and explanation to provide the requested response. Individual Board members shall submit such requests to the full Board for

consideration. Upon [concurrence of the other board members/majority request of the Board], the request shall then be forwarded to the Superintendent for response.

3. Complaints regarding personnel. Board members may have their own complaints regarding District personnel or may hear such complaints from the community. These concerns should be privately communicated to the Superintendent.

(cf. 6162.8 - Research)

(cf. 9322 - Agenda/Meeting Materials)

(AR 1312.1 Complaints Concerning School Personnel)

Obligations of Members

Members of the Board must endeavor to attend all meetings, study all materials presented with the agenda prior to attending the meeting, participate in the discussion of any items which come before the Board, and vote on all motions and resolutions, abstaining only for compelling reasons. If no compelling reason requires abstention, members of the Board shall not abstain.

The Board member should not subordinate the education of children and youth to any partisan principle, group interest, or the member's own personal interest.

The Board member should be prepared and willing to devote a sufficient amount of time to the study of the problems of education in the district, the state, and the nation in order to interpret them to the people of the district.
