Re: Board Policy Update 102

“Update 102 addresses several recent changes in state and federal law; such as amendments to the Texas Administrative Code on special education services, community and student engagement, and community-based fine arts programs; and revised federal rules on the definition of spouse under the Family and Medical Leave Act. As part of Update 102, TASB Policy Service engaged an outside law firm with expertise in bond issues and investments to conduct a periodic review of the legal and local policies addressing bonds and investments. Another significant change at Update 102 includes a reorganization of the DE series of policies addressing compensation to focus the series on the primary component—the board-adopted compensation plan.” [Vantage Points](#), TASB Policy Services
