APPENDIX F
REQUIREMENTS OF THE MISSISSIPPI STATEWIDE ASSESSMENT SYSTEM

STANDARD 22

I. PURPOSE

It is the policy of the State Board of Education that all test procedures and results that are used in the Mississippi Statewide Assessment System and/or used in the Performance-Based Accreditation System be valid and accurate for making related decisions. In order to protect the security and integrity of all tests administered through the Mississippi Statewide Assessment System, as well as to ensure reporting of accurate assessment results, the State Board of Education establishes the following requirements and the consequences applied when a school district or school is found in violation of any requirement. These requirements are established under the authority granted in Sections 37-16-1, 37-16-3, and 37-16-4, *Mississippi Code of 1972, as amended*.

II. DEFINITIONS

Secure test materials include certain test administrator manuals, test booklets, answer documents, and other materials as specified by the Office of Student Assessment.

A possible testing irregularity is any incident in the test handling or administration that leads to a question regarding the security of the test or the accuracy of the test data.

A verified testing irregularity is a violation of a testing requirement.

III. REPORTING AND USE OF TEST DATA

The school district will release test score information to parents, legal representatives, teachers, students, other educators, the media, and the public in a timely manner and provide interpretive material as necessary. The school district will use test scores appropriately in making decisions regarding students. A decision or characterization that will have a major impact on an individual student is not made on the basis of a single test score. Additional retesting opportunities will be made available for any "high stakes" test.

IV. REQUIREMENTS

The following is not an exhaustive list of requirements.

1. The District Test Coordinator or a designated representative of the school district shall attend applicable training sessions sponsored by the Office of Student Assessment.

2. A District Test Security Plan is prepared each year.
 - a. The District Test Security Plan contains all components as required by the Office of Student Assessment.
 - b. The District Test Security Plan is signed by the district superintendent, the district test coordinator and the chairman of the school board. The School Test Security Plan, which is a part of the District Test Security Plan, is signed by the school principal, school test coordinator, and the district test coordinator.
 - c. The District Test Security Plan identifies **all** individuals who have access to the secure storage area at district and school sites.
3. Except during actual test administration, secure test materials are kept under lock and key, and access to secure test materials is limited to those individuals identified in the test security plan as responsible for their security.
 - a. Secure test materials are kept in locked storage before testing at both the district and school levels.
 - b. Access to secure test materials is limited to those individuals identified in the test security plan. Test administrators and proctors will have access as described in the district test security plan. Access to test materials means handling the materials, not reviewing and analyzing test items, unless reading accommodations are required. The superintendent or a specified designee shall designate the personnel who are authorized to have access to test materials.
 - c. Test materials are not to be removed from security packaging prior to the time indicated on instructions from the Office of Student Assessment.
 - d. Secure test materials are kept in locked storage after testing at both the district and school levels unless otherwise directed by the Office of Student Assessment.
4. All secure test materials are accounted for before, during, and after testing as specified in the District Test Security Plan. Test administrators and proctors will have access as described in the district test security plan. Access to test materials means handling the materials, not reviewing and analyzing test items, unless reading accommodations are required. The superintendent or a specified designee shall designate the personnel who are authorized to have access to test materials.
 - a. All secure test materials are accounted for before testing at the district level.
 - b. All secure test materials are accounted for before testing at the school level.
 - c. Test administrators account for all secure test materials before students are allowed to leave the testing room.
 - d. All secure test materials are accounted for after testing at the school level.
 - e. All secure test materials are accounted for after testing at the district level.
 - f. All secure materials are returned according to the schedule published by the Office of Student Assessment. In the event that a secure testing document has been contaminated by body fluids or other health-related hazards, the district test coordinator will notify the Office of Student Assessment and follow the procedures for disposal as outlined in the District Test Security Plan.
 - g. If supplementary materials, such as scratch paper, maps, and manipulatives are provided, procedures for disposal are outlined in the District Test Security Plan and followed.
5. Any person involved in any phase of the testing program has been trained in appropriate assessment administration and test security procedures.

- c. The district maintains complete records of all professional development related to assessment.
 - d. The district has documentation that training related to assessment included information on test security violations and the consequences of violations.
6. Both a test administrator and a proctor are present and actively monitoring students during the entire test administration. At least two people are present from the time that testing materials are distributed to the test administrator until all test materials have been returned to the secure area.
 7. Students are not allowed access to test questions prior to testing and are not allowed access to answers at any time.
 8. Reproducing (by any means) or disclosing secure test material (including pilot material) and student responses before, during or after test administration are prohibited. Reproduction or disclosure of secure test materials includes but is not limited to the following: reviewing, reading, or looking at secure test material in a manner that is inconsistent with test security regulations and/or procedures as outlined in the test administrator's manual. Use of unreleased test items in any form (including rewording of such test items) is strictly prohibited.
 9. Coaching students, altering responses, or interfering with responses in any way during or after the scheduled test administration is prohibited. Coaching students is defined as providing answers by staff or other students to students in any manner during the test, including cues, clues, hints, and/or actual answers in any form-written, printed, verbal or non-verbal (including but not limited to chalkboards, charts, bulletin boards, posters, computers, hand signals) or allowing students to alter responses after the scheduled test administration.
 10. All eligible students are tested. (See also *Mississippi Statewide Assessment System: Guidelines for Testing Students with Disabilities 2005 and Guidelines for English Language Learner: Policies, Procedures, and Assessments 2005* concerning student eligibility.) (SB Policy IHF-1, IHF-2, and IIB-3) {MS Code 37-16-3(2)}
 - a. Accurate exclusions, absences, and other required data are compiled for each test for each school.
 - b. Exclusions and absences data for each test for each school are maintained on file in the district.

 - d. Students enrolled in and taking courses for the first time for which end-of-course Subject Area Tests are required shall take the appropriate Subject Area Tests. These students shall take the appropriate end-of-course Subject Area Test, even if the course title in Approved Courses for the Secondary Schools of Mississippi includes the words Accelerated, Enrichment, or Advanced Placement.

 15. Test administrators and proctors keep written records of any testing irregularities occurring during testing and report these to the school test coordinator who then reports to the District Test Coordinator. The District Test Coordinator reports all irregularities for a test administration to the district superintendent for investigation. Documentation regarding testing irregularities is maintained on file in the district.
 16. The superintendent of the district investigates all reports of alleged violations of test security and/or potential testing irregularities and submits a report of findings to the Office of Student Assessment within fifteen working days after the alleged violation and/or potential irregularity has been reported to him or her.

 19. The school prohibits the possession and/or use of any electronic communication device, including cell phones and personal digital assistance devices, during the administration of scheduled statewide tests.
 20. Tests are to be administered in an environment that provides an adequate test setting for students. Such an environment should provide adequate lighting, reduced noise level, and spacing to ensure that students cannot see the answers being bubbled (or answers being selected during computer-based online testing) by other students.

V. INVESTIGATION

The Office of Student Assessment follows a systematic procedure to ensure that all evidence indicating possible testing irregularities is investigated. Corrective action will be taken when warranted.

A. PROCEDURE FOR INVESTIGATION

Identifying and investigating possible testing irregularities involves a variety of data sources. These include formal testing audits, self-reports of testing irregularities, allegations/complaints related to possible testing irregularities, and results of analyses and reports designed to identify possible irregularities, including the percent of students tested, changes in enrollment, score exceptionalities, erasure report results, constructed response reports, and missing documents reports.

The flowchart on page 53 illustrates the sources of data and the procedure used in notifying districts of possible testing irregularities, in determining whether each testing irregularity is resolved or verified, and in notifying the school district of any verified testing irregularities.

The procedure for handling testing irregularities is repeated for each test administration. The Office of Student Assessment will notify the school district in writing when a possible testing irregularity has been identified. Within fifteen working days following a reported potential irregularity/violation and/or receipt of the written notification from the Office of Student Assessment, the district will submit a written report to the Office of Student Assessment. The Office of Student Assessment reserves the right to conduct an independent investigation.

The Office of Student Assessment will evaluate the district report to determine whether the possible testing irregularity has been resolved or the testing irregularity has been verified. If the possible testing irregularity has been resolved, the Office of Student Assessment will notify the district that no further action is required. If a testing irregularity has been verified, the Office of Student Assessment will notify the district superintendent.

In the case of any verified testing irregularity that jeopardized or may have jeopardized the security and integrity of the test(s) or the accuracy of the test results, the Office of Student Assessment will report the irregularity to the Office of Accreditation for appropriate action and follow-up. (See *CONSEQUENCES*.)

B. PROCEDURES FOR PERSONAL MISCONDUCT INVESTIGATION

If an irregularity that represents misconduct or other breaches of test security on the part of district personnel within a school district is identified, the superintendent of the district will be notified of the irregularity. It is the responsibility of the district to conduct an investigation into the allegation and report findings to the Office of Student Assessment. If the Office of Student Assessment concludes that the irregularity was resolved, the district is notified that no further action is necessary.

If the Office of Student Assessment concludes that the irregularity was verified, the district superintendent is notified that the Office of Accreditation is being apprised of the finding.

The district attorney may investigate allegations of violations of test security on his own initiative following receipt of allegations, at the request of a school district, or at the request of the Mississippi Department of Education.

After a conviction, the personnel in question will be notified in writing that the evidence of conviction will be presented to the Commission on Educator Licensure and that the Commission is required to take action pursuant to the authority granted in Section 37-16-4, *Mississippi Code of 1972*, as amended.

VI. CONSEQUENCES

A. LETTER OF WARNING

If a violation has been verified that did not result in a substantial probability that the security, accuracy, or validity of the test results has been jeopardized, then the Office of Student Assessment may issue a letter of warning to the school district superintendent to be placed in the district and/or school file. The Office of Student Assessment will also note the warning on the School and/or District Assessment Record spreadsheet.

Multiple and/or repeated minor violations that indicate the district and/or school has not corrected issues addressed in previous letters of warning or that the district and/or school has continued to be in noncompliance with the numbered issues listed in Requirements (Section IV) may result in a recommendation for a citation to be placed on the accreditation record. (See B below.)

B. CITATION PLACED ON THE ACCREDITATION RECORD WITH NO IMMEDIATE ACTION TO DOWNGRADE THE ACCREDITATION STATUS

1. Multiple Letters of Warning

Multiple and/or repeated violations as outlined in A above may result in a recommendation for a citation to be placed on the district's Accreditation Record Summary. The Office of Accreditation will note the citation of noncompliance on the district's accreditation record and notify the superintendent of this action. No immediate action to downgrade the district accreditation status will be recommended. This citation will remain on record until the district has **successfully** completed the next scheduled administration of the same test for which the irregularity was originally verified.

The Office of Student Assessment may recommend to the Commission on School Accreditation that the school's annual performance classification include the label School in Violation of Test Security.

2. Substantial Probability That the Security, Accuracy, or Validity of the Test Results Has Been Jeopardized

If a verified violation has resulted in a substantial probability that the security, accuracy, or validity of the test results has been jeopardized, the Office of Student Assessment will issue written notification to the district superintendent. The Office of Student Assessment will note the violation on the School and/or District Assessment Record and notify the Office of Accreditation.

The Office of Accreditation will note the citation of noncompliance on the district's accreditation record and notify the superintendent of this action. No immediate action to downgrade the district accreditation status will be recommended. This citation will remain on record until the district has **successfully** completed the next scheduled administration of the **same test** for which the irregularity was originally verified. For example, if the citation is issued for the December paper/pencil Subject Area Administration of the U. S. History Test, the next scheduled administration for the same test will be the December paper/pencil Subject Area administration the following year.

The Office of Student Assessment may submit a recommendation to the Commission on School Accreditation that the school's annual performance classification include the label School in Violation of Test Security.

C. CITATION PLACED ON THE ACCREDITATION RECORD THAT MAY RESULT IN IMMEDIATE ACTION TO DOWNGRADE OF ACCREDITATION STATUS

If it is determined that a violation of a testing requirement jeopardizes the security and integrity of the test(s) or the accuracy of test results, the Office of Student Assessment will issue written notification of the violation to the superintendent of the school district and to the Office of Accreditation. The Office of Student Assessment will also note the warning on the School and/or District Assessment Record.

The Office of Accreditation will note the citation of noncompliance on the district's Accreditation Record Summary and notify the superintendent of this action. The citation of noncompliance will be presented to the Commission on School Accreditation for appropriate action. This citation will remain on record until the district has **successfully** completed the next scheduled administration of the **same test** for which the irregularity was originally verified. For example, if the citation is issued for the December paper/pencil Subject Area Administration of the U. S. History Test, the next scheduled administration for the same test will be the December paper/pencil Subject Area administration the following year.

The Office of Student Assessment may recommend to the Commission on School Accreditation that the school's annual performance classification include the label School in Violation of Test Security.

D. INVALIDATION OF SCORES

1. Student Retest and Score Invalidation Procedure

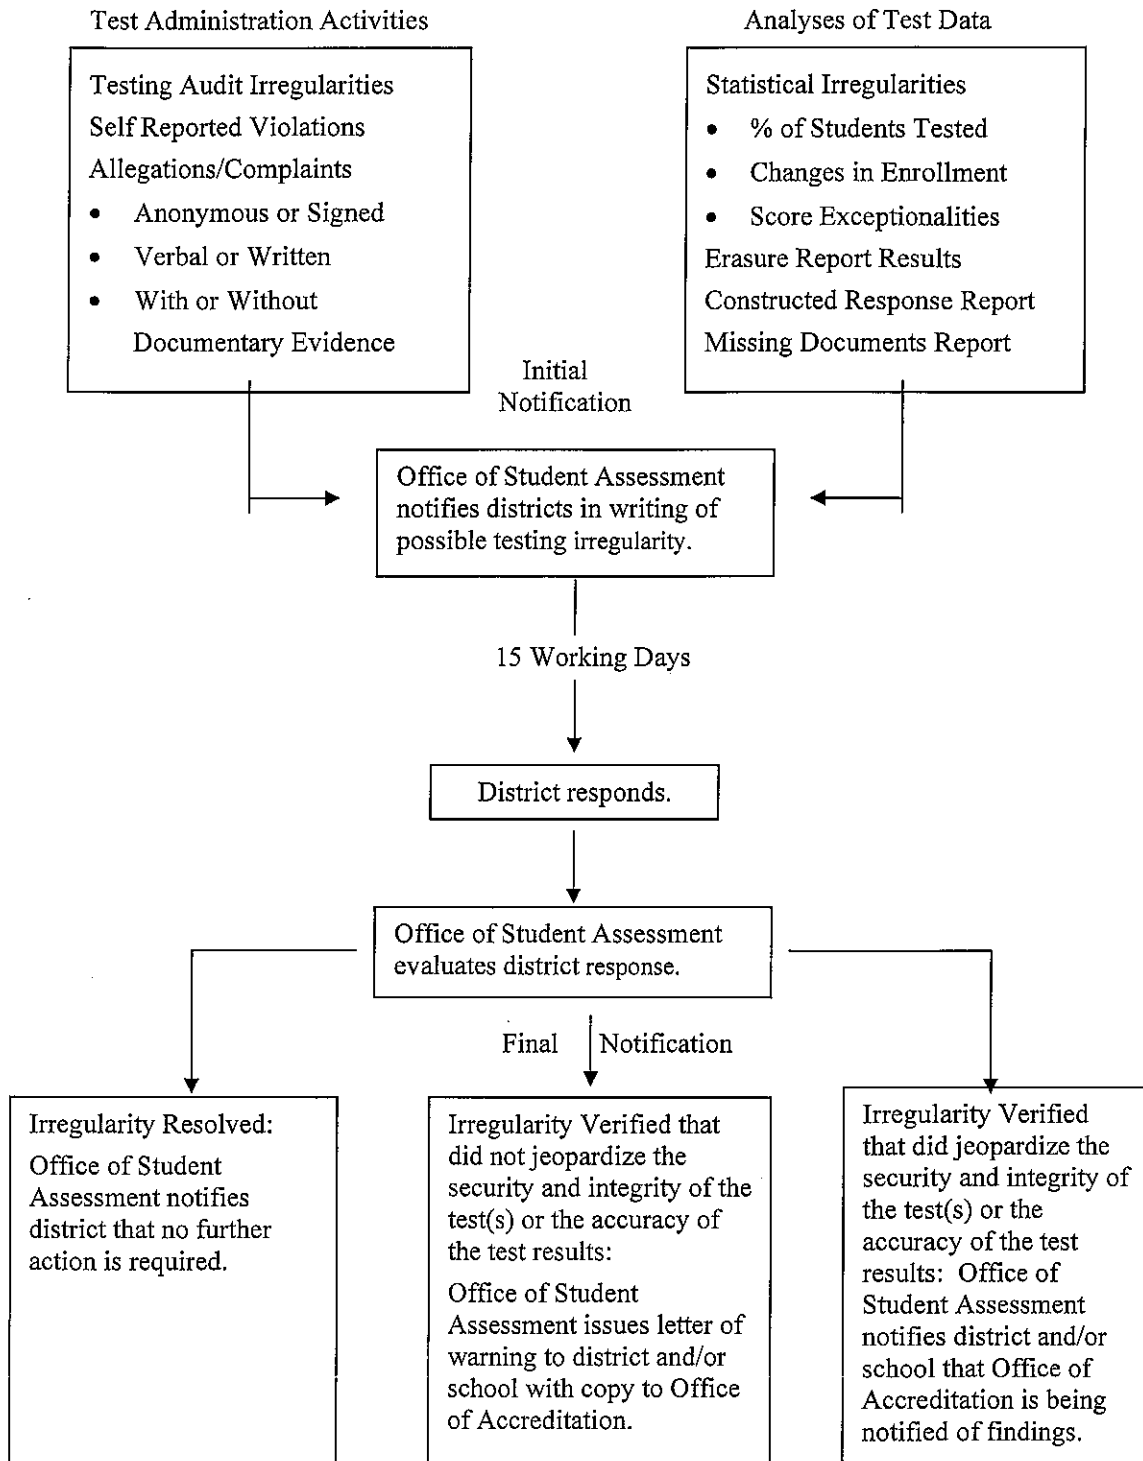

The State Superintendent of Education may order the local school district to have students retake the examination(s) at the district's expense for all areas in question. Should the local district choose not to have students reexamined to establish validity, or in the case of norm-referenced testing where retesting would be inappropriate, the State Superintendent of Education may recommend to the State Board of Education that any affected scores be invalidated. The local district will be notified of any recommendation going to the State Board of Education and given an opportunity to appear before the State Board of Education or its designee.

A school will not receive a school performance classification if the test data have been invalidated, and the school performance classification will be noted as Test Data Invalidated. (See Accreditation Policy 3.3.)

2. Individual Irregularity Procedure

If there is evidence of a nature that confirms one or more individual testing irregularities on the Subject Area Tests or other tests that have high stakes consequences for individual students, the individual(s) in question will be notified in writing of the irregularity and given an opportunity to provide an explanation and evidence that the questioned score(s) is/are consistent with other test scores or other academic performance. If retesting of individuals on the test is required and the retesting yields scores that would deny students a diploma or affect promotion/retention decisions after all retesting opportunities have been exhausted, affected individuals will be given an opportunity to appeal to the State Board of Education the decision to invalidate their original scores on the test. No hearing will be granted to any student who has not completed all other requirements for graduation or promotion and exhausted all retake opportunities.

Procedure for Handling Possible Testing Irregularities

The procedure for handling testing irregularities is repeated for each test administration.
