 - Cross country
 - Track and Field

Strategic Plan- Steering Committee

A steering committee for a school district's strategic plan plays a crucial role in guiding and overseeing the development and implementation of the plan. The committee is typically made up of key stakeholders, such as district leaders, teachers, parents, community members, and experts. Their responsibilities include setting the vision and goals for the district, ensuring alignment with the district's mission, monitoring progress, providing feedback, and making necessary adjustments to stay on track. They also act as a liaison between the district and the community, ensuring transparency and promoting stakeholder involvement in the strategic planning process.

If you are interested in joining the Strategic Planning Steering Committee [click here](#) to complete the form and indicate your interest.
