# 2008-2009

---

The 2008-2009 Arizona legislative sessions began with stark predictions for the impact which the current recession would have upon the state's finances. These predictions were followed in late January 2009 with legislation (SB 1006) for implementing budget reductions in the current fiscal year (2008-2009). For our statewide system of K-12 public education, a reduction of approximately \$133,000,000 in funding was made.
