1:1 Chromebooks

Year 1 Review
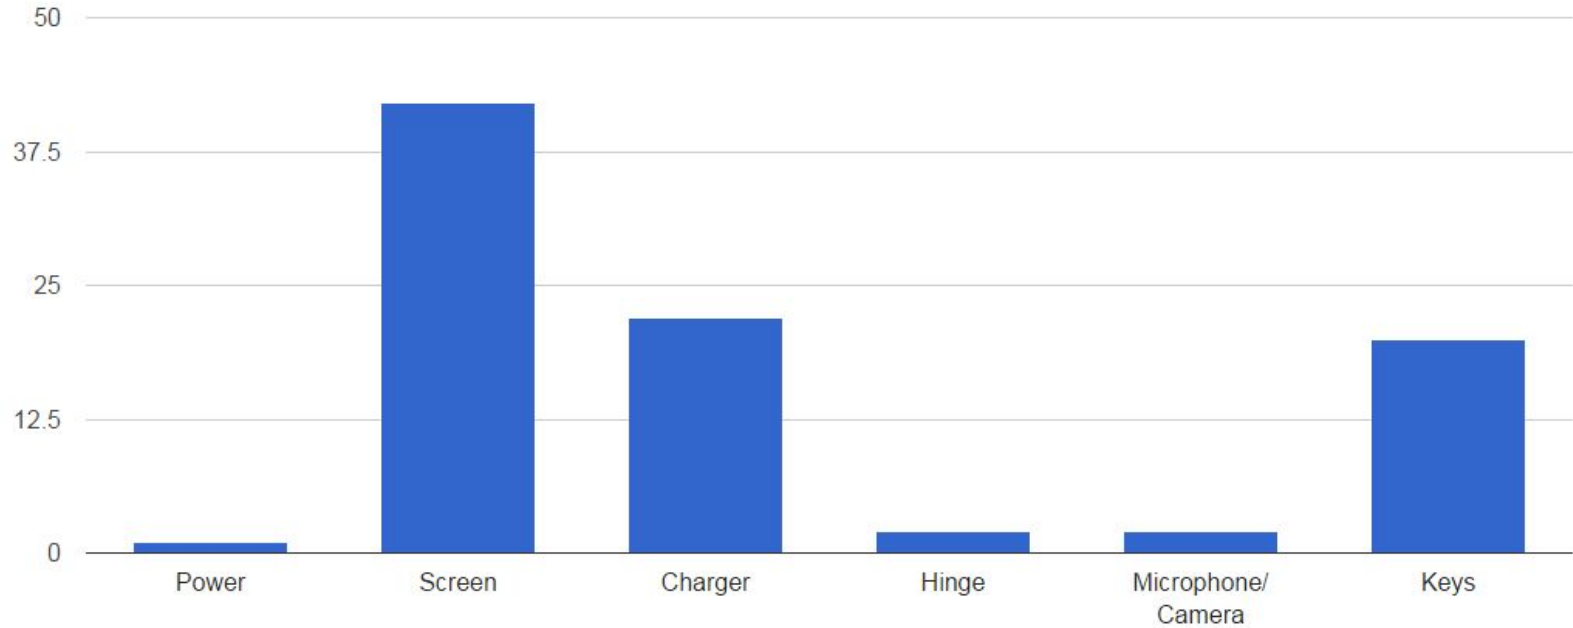

Pre-Roll Out:

- Research
  - Site visits to other schools
  - Best Practice guidelines
  - Webinars and online resources
- Plan
  - Develop a system for device assignment
    - Serial # and asset tag assigned to individual students
    - Have devices assigned and organized for easy distribution on back to school night
      - Biggest challenge was the number of drops/adds right before school started
- Distribute
  - Back to School Night

Post Roll-out and Maintenance

Biggest challenge: First Year - unsure what to expect

- Most revisions revolved around repairs
    - Volume and type of repairs needed
    - Cost of repairs
        - Revise repair charges to more accurately reflect cost of parts/repairs
    - Repair request process evolved over the course of the year to improve tracking
    - More improvements planned for next year to improve communication with parents when devices are repaired.
- Content Filter
    - Ongoing process to adjust
    - Created additional restrictive profiles

Most Frequent Repairs:

Chromebook Parts Fees

	Samsung XE303	Samsung XE500	Lenovo N22
LCD	40	40	36
LCD Back Cover	20	20	30
LCD Bezel	12	20	15
Bottom Panel	15	20	25
