

Students

Administering Medicines to Students

Students should not take medication during school hours or during school-related activities unless it is necessary for a student's health and well-being. When a student's licensed health care provider and parent(s)/guardian(s) believe that it is necessary for the student to take a medication during school hours, or school-related activities, the parent/guardian must request that the school dispense the medication to the child and otherwise follow the District's procedures on dispensing medication.

No School District employee shall administer to any student, or supervise a student's self-administration of, any prescription or non-prescription medication until a completed and signed "School Medication Authorization Form" is submitted by the student's parent(s)/guardian(s). No student shall possess or consume any prescription or non-prescription medication on school grounds or at a school-related function other than as provided for in this policy and its implementing procedures.

Nothing in this policy shall prohibit any school employee from providing emergency assistance to students, including administering medication.

The Building Principal shall include this policy in the Student Handbook and shall provide a copy to the parents/guardians of students within 15 days of student enrollment.

Self-Administration of Medication

A student may possess an epinephrine auto-injector (EpiPen®) and/or **asthma** medication prescribed for ~~asthma~~ **for immediate** use at the student's discretion, provided the student's parent/guardian has completed and signed a "School Medication Authorization Form." The School District shall incur no liability, except for willful and wanton conduct, as a result of any injury arising from a student's self-administration of medication or epinephrine auto-injector or the storage of any medication by school personnel. A student's parent(s)/guardian(s) must indemnify and hold harmless the School District and its employees and agents, against any claims, except a claim based on willful and wanton conduct, arising out of a student's self-administration of an epinephrine auto-injector and/or medication or the storage of any medication by school personnel.

School District Supply of Undesignated ~~Epinephrine Auto-Injectors~~ **Asthma Medication**

The Superintendent or designee shall implement Section 22-30(f) of the School Code and maintain a supply of undesignated ~~opioid-antagonist~~ **asthma medication** in the name of the District and provide or administer them as necessary according to State law. ~~Opioid-antagonist~~ **Undesignated asthma medication** means an **asthma medication prescribed in the name of the District or one of its schools.** ~~drug that binds to opioid receptors and blocks or inhibits the effect of opioids acting on those receptors, including, but not limited to, naloxone hydrochloride or any other similarly acting drug approved by the U.S. Food and Drug Administration.~~ ~~Undesignated opioid-antagonist is not defined by the School Code; for purposes of this policy it means an opioid-antagonist prescribed in the name of the District or one of its schools.~~ A school nurse or trained personnel, as defined in State law, may administer an undesignated ~~opioid-antagonist~~ **asthma medication** to a person when they, in good faith, believe a person is having an ~~opioid-overdose~~ **respiratory distress. Respiratory distress may be characterized as mild-to-moderate or severe.** Each building administrator and/or his or her corresponding school nurse shall maintain the names of trained personnel who have received a statement of certification pursuant to State law.

School District Supply of Undesignated Epinephrine Injectors

The Superintendent or designee shall implement Section 22-30(f) of the School Code and maintain a supply of undesignated epinephrine injectors in the name of the District and provide or administer them as necessary according to State Law. *Undesignated epinephrine injector* means an epinephrine injector prescribed in the name of the District or one of its schools. A school nurse or trained personnel, as defined in State law, may administer an undesignated epinephrine injector to a person when they, in good faith, believe a person is having an anaphylactic reaction. Each building administrator and/or his or her corresponding school nurse shall maintain the names of trained personnel who have received a statement of certification pursuant to State law.

School District Supply of Undesignated Opioid Antagonists

The Superintendent or designee shall implement Section 22-30(f) of the School Code and maintain a supply of undesignated opioid antagonists in the name of the District and provide or administer them as necessary according to State law. *Opioid antagonist* means a drug that binds the opioid receptors and blocks or inhibits the effect of opioids acting on those receptors, including, but not limited to, naloxone hydrochloride or any other similarly acting drug approved by the U.S. Food and Drug Administration. *Undesignated opioid antagonist* is not defined by the School Code; for purposes of this policy it means an opioid antagonist prescribed in the name of the District or one of its schools. A school nurse or trained personnel, as defined in State law, may administer an undesignated opioid antagonist to a person when they, in good faith, believe a person is having an opioid overdose. Each building administrator and/or his or her corresponding school nurse shall maintain the names of trained personnel who have received a statement of certification pursuant to State law. See the website for the Ill. Dept. of Human Services for information about opioid prevention, abuse, public awareness, and a toll-free number to provide information and referral services for persons with questions concerning substance abuse treatment.

Designated Caregiver Administration of Medical Cannabis

The Compassionate Use of Medical Cannabis Pilot Program Act allows a parent/guardian of a student who is a minor to register with the Ill. Dept. of Public Health (IDPH) as a *designated caregiver* to administer medical cannabis to their child. A designated caregiver may also be another individual other than the student's parent/guardian. Any designated caregiver must be at least 21 years old and is allowed to administer a *medical cannabis infused product* to a child who is a student on the premises of his or her school or on his or her school bus if:

1. Both the student and the designated caregiver possess valid registry identification cards issued by IDPH;
2. Copies of the registry identification cards are provided to the District; and
3. That student's parent/guardian completed, signed, and submitted a *School Medication Authorization Form – Medical Cannabis*.

Medical cannabis infused product (product) includes oils, ointments, foods, and other products that contain usable cannabis but are not smoked or vaped. Smoking and/or vaping medical cannabis is prohibited.

After administering the product to the student, the designated caregiver shall immediately remove it from school premises or the school bus. The product may not be administered in a manner that, in the opinion of the District or school, would create a disruption to the educational environment or cause exposure of the product to other students. A school employee shall not be required to administer the product.

Discipline of a student for being administered a product by a designated caregiver pursuant to this policy is prohibited. The District may not deny a student attendance at a school solely because he or she requires administration of the product during school hours.

Void Policy; Disclaimer

The **School District Supply of Asthma Medication** section of the policy is void whenever the Superintendent or designee is, for whatever reason, unable to: (1) obtain for the District a prescription for undesignated asthma medication from a physician or advanced practice nurse licensed to practice medicine in all its branches, or (2) fill the District's prescription for undesignated school asthma medication.

The **School District Supply of Undesignated Epinephrine Auto-Injectors** section of the policy is void whenever the Superintendent or designee is, for whatever reason, unable to: (1) obtain for the District a prescription for undesignated epinephrine auto-injectors from a physician or advanced practice nurse licensed to practice medicine in all its branches, or (2) fill the District's prescription for undesignated school epinephrine auto-injectors.

The **School District Supply of Undesignated Opioid Antagonists** section of the policy is void whenever the Superintendent or designee is, for whatever reason, unable to: (1) obtain for the District a prescription for opioid antagonists from a health care professional who has been delegated prescriptive authority for opioid antagonists in accordance with Section 5-23 of the ~~Alcoholism and Other Drug Abuse and Dependency Act~~, **Substance Use Disorder Act**, or (2) fill the District's prescription for undesignated school opioid antagonists.

The **Designated Caregiver Administration of Medical Cannabis** section of the policy is void and the District reserves the right not to implement if the District or school is in danger of losing federal funding.

Administration of Undesignated Medication

Upon any administration of an undesignated **asthma medication**, epinephrine auto-injector or an opioid antagonist, the Superintendent or designee(s) must ensure all notifications required by State law and administrative procedures occur.

~~Upon implementation of this policy, the protections from liability and hold harmless provisions as explained in Section 22-30(e) of the School Code apply.~~

No one, including without limitation parents/guardians of students, should rely on the District for the availability of **undesignated asthma medication**, an epinephrine auto-injector and/or **undesignated opioid antagonist**. This policy does not guarantee the availability of ~~an epinephrine auto-injector and/or opioid antagonist~~ **undesignated medications**. Students and their parents/guardians should consult their own physician regarding such medication(s).
