

Mr. Ciccarini, Dr. Conway, and Members of the Board of Education,

It is with mixed emotions that I tender my resignation as second grade teacher at Bradley School. While my position in the Bradley Family has been a coveted one, reading is my passion and I plan to pursue it as a reading interventionist in Milford.

I cannot begin to express my gratitude toward Derby for the experiences it has provided me both personally and professionally. Working with the children and families in Derby has been nothing short of a privilege and extremely rewarding. In my time here, I feel as though I have really been able to become a part of the community, and that is something I will always cherish. Professionally I have been provided numerous opportunities to grow and develop through district initiatives as well as personal initiatives the district was willing to support. I have been the benefactor of training with Generation Ready, Literacy How, participation in The Hill for Literacy, and training in Orton Gillingham methodology. The administration in Derby genuinely has had my back in every circumstance. The administration combined with the students and families in Derby have provided an experience for me that I will forever hold in high esteem.

I regret any inconvenience this may cause and wholeheartedly thank you for six rewarding years in your employ.

Sincerely,

Elizabeth White
