

Foley Public Schools Activities Department Update
December 15, 2025 School Board Meeting

Greetings from the Foley Public Schools Activities Department,

C-Squad Girls Basketball

I am excited to announce that the participation numbers within the Girls Basketball Program are strong enough to support a C-Squad Team this season. Last year was the first year that Foley did not have a C-Squad Team. This season Foley was one of just two schools in the GRC Conference (along with Pierz) that had the ability to run a 7th Grade, 8th Grade, C-Squad, JV, and Varsity Girls Basketball Program.

Bound

The Granite Ridge Conference has made the decision to transition to Bound for its online scheduling for the 2026-27 school year. This will replace rSchools who have been bought out by Arbiter. Decisions will need to be made by the Activities Department with regard to ticketing, registration, and other aspects that Bound offers prior to the start of the school year next Fall.

Weight Room Update

Multiple meetings have been had with Dynamic Fitness in order to make the weight room project more manageable. The project has been broken down into two phases which makes the total number for the project lower. Benches for the weight room have been ordered and should be in to replace the old benches in the very near future. Stay tuned for update figures on what the new expected total cost of the weight room and a new timeline as those details are being sorted out.

Thanks You,

Eric Inglis
