2008-2009 Calendar Comments

- Thank you for showing and sharing the 08-09 calendar to EIC yesterday. I think you have “split the middle” very well. And, as a parent, having a child in middle school for the first year this year, I think my daughter is more rested and ready to study for final exams now as opposed to before Christmas break.
- I appreciated the presentation that you made at EIC yesterday. I am so glad that you and Jamie were able to find a solution that works for all schools and most importantly all students. Moving the staff development day to January is a win-win for everyone.

Thank you for finding a viable solution for all of us.
