

Belton Independent School District
Board of Trustee Meeting Agenda Item
March 30, 2026

Item: Selection of Construction Delivery Method for the Transportation Center and DAEP Facility Roof Replacement Projects

Contact Person: Dr. Michael Morgan

Presented for: Action Report Only

Supporting Documents: None Attached Provided Later

District Goal or Objective Addressed:

Goal 5: Maximize our use of resources for both current priorities and plans for the future.

Background Information:

District Administration engaged Hollon+Cannon Group, LLC for design services for the Transportation Center and DAEP Facility Roof Replacement Projects in February 2026.

The Board is required to select the method of procurement that provides the best value to the District for construction of these two projects. Administration recommends the competitive sealed proposal method as the delivery method offering the best value for construction of the Transportation Center and DAEP Facility Roof Replacement Projects.

Fiscal Implications:

These projects will be funded from 2025-2026 Capital Projects Funds.

Administrative Recommendation(s):

Approve Competitive Sealed Proposals as the delivery method for the Transportation Center and DAEP Facility Roof Replacement Projects and authorize the Superintendent to issue Requests for Competitive Sealed Proposals, establish selection committees to evaluate and rank the proposals, and bring the recommended rankings back to the Board for approval and contract authorization.
