

Personnel -- Non-Certified

Drug and Alcohol Testing for School Bus Drivers

Contracts for transportation approved by this District shall contain assurance that the contractor will establish a drug and alcohol testing program that meets the requirements of federal regulations.

In addition, the District expects its school transportation contractor to train all school bus drivers, with instruction pertaining to the identification, the signs and symptoms of anaphylaxis, and in the administration of epinephrine by a cartridge injector (“EpiPen”), the notification of emergency personnel, and the reporting of an incident involving a student’s life-threatening allergic reaction. Such training, shall occur following the issuance or renewal of an endorsement to operate a school bus for carrier employees, and upon the hiring of a school bus driver, except a driver who received the training after the most recent issuance or renewal of his or her endorsement is not required to repeat it.

Prior to employment of bus drivers, the District expects its school transportation carrier to conduct a full query of the Federal Motor Carrier Safety Administration’s Drug and Alcohol Clearinghouse (Clearinghouse) to obtain information about the driver’s eligibility under federal rules to perform a safety-sensitive function. The District/school transportation carrier will also contact prior employers where the applicant was a CDL driver for information to determine the driver’s eligibility to perform safety-sensitive functions. (Prior employers’ inquiries will continue until January 2023.)

The school transportation carrier will also utilize the Clearinghouse for current CDL drivers who are employees on at least an annual basis. Required personal information that is collected and maintained in connection with the testing program shall also be reported, as required, to the Clearinghouse.
