Ladies and Gentlemen of the Board

At last November's school board meeting East and West Minico were authorized to change the fee we charge those that participate in our Ski Club's to \$140 per student.

Due to an oversight, the new fee did not get changed in the fee schedule that was sent to the board in June.

We ask that the board re-approve the \$140 fee we need to operate our programs.

East Minico is also going to try something new this year. We generally have 15 or so seats on our second bus that are not filled. We would like to fill these seats by running a three week program that runs concurrent with our six week program. We would charge \$70 per student and run them on an A & B schedule. Half will go the first three weeks of the program, and the other half will attend the last three weeks of our ski season.

If this works well and is successful, we will continue to run a similar program in the future to allow more students to participate in our Club.

Respectfully

Aaron T. Larson – East Minico Ski Club Advisor
Michael Jurgensmeier – West Minico Ski Advisor
