

MAINTENANCE REPORT 2010 - 2011

There was a total 3067 completed work orders from August 1, 2010 through July 31, 2011 compared to the 2361 last year. The graph shows the breakout of work orders per campus.

These state inspections and regular inspections that were done over the summer:

Fire Alarms

Gas pipe pressure testing

Ansul fire retardant systems

Fire extinguishers

Elevator, Boilers, Bleachers, Scoreboards

These projects were completed over the summer:

Build out for AFJROTC at Jr. High

Move DAEP to instructional Services Building

Painting at PCE, GLE, Jr. High

Preventive Maintenance on A/C systems throughout the district

The maintenance and custodial departments have done very well this year maintaining and cleaning the facilities, grounds, and performing several tasks.
