Previously, the rule required the district to provide TEA with a copy of the local innovation plan.

|--------------------------|---|
| Oversight                | The district must maintain oversight to ensure that contractors per-<br>form in accordance with the terms, conditions, and specifications of<br>their contracts or purchase orders.   |
| Conflicts of<br>Interest | The district must maintain written standards of conduct covering conflicts of interest and governing the actions of its employees en-<br>gaged in the selection, award, and administration of contracts. No employee, officer, or agent may participate in the selection, award, or administration of a contract supported by a federal award if he or she has a real or apparent conflict of interest. A conflict of interest would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization that employs or is about to employ any of these parties, has a financial or other interest in or a tangible personal benefit from a firm considered for a contract. The officers, employees, and agents of the district may neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts. However, districts may set standards for situations in which the financial interest is not substantial or the gift is an unsolicited item of nominal value. The standards of conduct must provide for disciplinary actions to be applied for violations of such standards by officers, employees, or agents of the district. [See BBFA, CAA(LO-CAL), CB(LOCAL), DBD] |
| Records                  | The district must maintain records sufficient to detail the history of procurement. These records will include, but are not necessarily limited to, the following: rationale for the method of procurement, selection of contract type, contractor selection or rejection, and the basis for the contract price. [See Pre-procurement Review and Contract Cost and Price, below]  |

| Financial<br>Management  | The district's financial management systems, including records documenting compliance with federal statutes, regulations, and the terms and conditions of the federal award, must be sufficient to permit the preparation of reports required by general and program-specific terms and conditions; and the tracing of funds to a level of expenditures adequate to establish that such funds have been used according to the federal statutes, regulations, and the terms and conditions of the federal award. [See also 2 C.F.R. 200.450 (Lobbying)]  |

The district's financial management system must comply with 2 C.F.R. 200.302(b). [See also 2 C.F.R. 200.334 (Retention requirements for records), .335 (Requests for transfer of records), .336 (Methods for collection, transmission and storage of information), and .337 (Access to records)]

#### Internal Controls The district must:

- 1. Establish and maintain effective internal control over the federal award that provides reasonable assurance that the district is managing the award in compliance with federal statutes, regulations, and the terms and conditions of the award. These internal controls should be in compliance with guidance in "Standards for Internal Control in the Federal Government" issued by the Comptroller General of the United States or the "Internal Control Integrated Framework" issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).
- 2. Comply with the U.S. Constitution, federal statutes, regulations, and the terms and conditions of the award.
- 3. Evaluate and monitor the district's compliance with statutes, regulations and the terms and conditions of federal awards.
- 4. Take prompt action when instances of noncompliance are identified including noncompliance identified in audit findings.
- 5. Take reasonable measures to safeguard protected personally identifiable information and other information the federal awarding agency or pass-through entity designates as sensitive or the district considers sensitive consistent with applicable federal, state, local, and tribal laws regarding privacy and responsibility over confidentiality.

#### 2 C.F.R. 200.303

"Internal controls" for districts means processes designed and implemented by districts to provide reasonable assurance regarding the achievement of objectives in the following categories:

- 1. Effectiveness and efficiency of operations;
- 2. Reliability of reporting for internal and external use; and
- 3. Compliance with applicable laws and regulations.

2 C.F.R. 200.1

| Competition                        | All procurement transactions for the acquisition of property or services required under a federal award must be conducted in a manner providing full and open competition consistent with the standards of 2 C.F.R. 200.319 and 200.320 (Methods of procurement to be followed).   |
|------------------------------------|--|
|                                    | In order to ensure objective contractor performance and eliminate<br>unfair competitive advantage, contractors that develop or draft<br>specifications, requirements, statements of work, or invitations for<br>bids or requests for proposals must be excluded from competing<br>for such procurements.   |
|                                    | The district must conduct procurements in a manner that prohibits<br>the use of statutorily or administratively imposed state, local, or<br>tribal geographical preferences in the evaluation of bids or propos-<br>als, except in those cases where applicable federal statutes ex-<br>pressly mandate or encourage geographic preference. Nothing in<br>this provision preempts state licensing laws. When contracting for<br>architectural and engineering services, geographic location may be<br>a selection criterion provided its application leaves an appropriate<br>number of qualified firms, given the nature and size of the project,<br>to compete for the contract. |
|                                    | The district must have written procedures for procurement transac-<br>tions. These procedures must ensure that all solicitations meet the<br>requirements of 2 C.F.R. 200.319(d). [See Procurement Stan-<br>dards, above]  |
|                                    | The district must ensure that all prequalified lists of persons, firms,<br>or products which are used in acquiring goods and services are<br>current and include enough qualified sources to ensure maximum<br>open and free competition. Also, the district must not preclude po-<br>tential bidders from qualifying during the solicitation period.  |
|                                    | Noncompetitive procurements can only be awarded in accordance with 2 C.F.R. 200.320(c).  |
|                                    | 2 C.F.R. 200.319   |
| Procurement<br>Methods             | The district must have and use documented procurement proce-<br>dures, consistent with the standards of 2 C.F.R. 200.320 and<br>200.317 (Procurements by states), 200.318 (General procurement<br>standards), and 200.319 (Competition) for any of the following<br>methods of procurement used for the acquisition of property or ser-<br>vices required under a federal award or sub-award. <i>2 C.F. | Informal<br>Procurement<br>Methods | When the value of the procurement for property or services under<br>a federal award does not exceed the simplified acquisition thresh-<br>old, as defined in 2 C.F.R. 200.1, or a lower threshold established  |

|                                     | by a district, formal procurement methods are not required. The<br>district may use informal procurement methods to expedite the<br>completion of its transactions and minimize the associated admin-<br>istrative burden and cost. The informal methods used for procure-<br>ment of property or services at or below the simplified acquisition<br>threshold include:   |

| Micro-<br>Purchases—<br>Definitions | "Micro-purchase" means a purchase of supplies or services, the aggregate amount of which does not exceed the micro-purchase threshold. Micro-purchases comprise a subset of a district's small purchases as defined in 2 C.F.R. 200.320.  |
|                                     | "Micro-purchase threshold" means the dollar amount at or below<br>which a district may purchase property or services using micro-pur-<br>chase procedures. Generally, the micro-purchase threshold for<br>procurement activities administered under federal awards is not to<br>exceed the amount set by the Federal Acquisition Regulations<br>(FAR) at 48 C.F.R. Part 2, Subpart 2.1 [see below], unless a higher<br>threshold is requested by the district and approved by the cog-<br>nizant agency for indirect costs.     |

| Micro-<br>Purchase<br>Awards        | Micro-purchases may be awarded without soliciting competitive price or rate quotations if the district considers the price to be reasonable based on research, experience, purchase history or other information and documents it files accordingly. Purchase cards can be used for micro-purchases if procedures are documented and approved by the district. <i>2 C.F.R. 200.320(a)(1)(ii)</i>  |
| Micro-<br>Purchase<br>Thresholds    | The district is responsible for determining and documenting an appropriate micro-purchase threshold based on internal controls, an evaluation of risk, and its documented procurement procedures. The micro-purchase threshold used by the district must be authorized or not prohibited under state, local, or tribal laws or regulations. Districts may establish a threshold higher than the federal threshold established in the FAR in accordance with 2 C.F.R. $200.320(a)(1)(iv)$ and (v). $2 C.F.R. 200.320(a)(1)(iii)$ |

The district may self-certify a threshold up to \$50,000 on an annual basis and must maintain documentation to be made available to the federal awarding agency and auditors in accordance with 2 C.F.R. 200.334. The self-certification must include a justification, clear identification of the threshold, and supporting documentation of any of the following:  |
|--|---|
|  | <ol> <li>A qualification as a low-risk auditee, in accordance with the<br/>criteria in 2 C.F.R. 200.520 for the most recent audit.</li> </ol>   |

The district must submit<br>a request with the requirements included in 2 C.F.R.<br>200.320(a)(1)(iv). The increased threshold is valid until there is a<br>change in status in which the justification was approved. 2 C.F.R.<br>200.320(a)(1)(v)   |
| Small<br>Purchases—<br>Procedures                              | The acquisition of property or services, the aggregate dollar<br>amount of which is higher than the micro-purchase threshold but<br>does not exceed the simplified acquisition threshold. If small pur-<br>chase procedures are used, price or rate quotations must be ob-<br>tained from an adequate number of qualified sources as deter-<br>mined appropriate by the district. 2 C.F.R. 200.320(a)(2)(i)   |
| Small<br>Purchases—<br>Simplified<br>Acquisition<br>Thresholds | "Simplified acquisition threshold" means the dollar amount below<br>which a district may purchase property or services using small pur-<br>chase methods. Districts adopt small purchase procedures in order<br>to expedite the purchase of items at or below the simplified acquisi-<br>tion threshold. The simplified acquisition threshold for procurement<br>activities administered under federal awards is set by the FAR at<br>48 C.F.R. Part 2, Subpart 2.1 [see below]. The district is responsi-<br>ble for determining an appropriate simplified acquisition threshold<br>based on internal controls, an evaluation of risk, and its docu-<br>mented procurement procedures. However, in no circumstances<br>can this threshold exceed the dollar value established in the FAR<br>(48 C.F.R. Part 2, Subpart 2.1) for the simplified acquisition thresh-<br>old. Recipients should determine if local government laws on pur-<br>chasing apply. 2 C.F.R. 200.1, .320(a)(2)(ii) |

Formal procurement methods<br>require following documented procedures. Formal procurement<br>methods also require public advertising unless a non-competitive<br>procurement can be used in accordance with 2 C.F.R. 200.319 or<br>200.320(c). The following formal methods of procurement are use<br>for procurement of property or services above the simplified acqui<br>sition threshold or a value below the simplified acquisition thresh-<br>old the district determines to be appropriate: |  |  |

Domestic As appropriate and to the extent consistent with law, the district should, to the greatest extent practicable under a federal award, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States (including but not limited to iron, aluminum, steel, cement, and other manufactured products). The requirements of 2 C.F.R. 200.322 must be included in all subawards including all contracts and purchase orders for work or products under this award.

For purposes of this provision:

- 1. "Produced in the United States" means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.
- 2. "Manufactured products" means items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer-based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber.

erty is no longer needed, the district must report the property to the federal awarding agency for further federal agency utilization.

Exempt property means property acquired under a federal award where the federal awarding agency has chosen to vest title to the property to the district without further responsibility to the federal government, based upon the explicit terms and conditions of the federal award. The federal awarding agency may exercise this option when statutory authority exists. Absent statutory authority and specific terms and conditions of the federal award, title to exempt property acquired under the federal award remains with the federal government.

2 C.F.R. 200.312(a), (c)

Property Trust Relationship Real property, equipment, and intangible property that are acquired or improved with a federal award must be held in trust by the district as trustee for the beneficiaries of the project or program under which the property was acquired or improved. The federal awarding agency may require the district to record liens or other appropriate notices of record to indicate that personal or real property has been acquired or improved with a federal award and that use and disposition conditions apply to the property. *2 C.F.R. 200.316* 

Real Property Subject to the requirements and conditions set forth in 2 C.F.R. 200.311, title to real property acquired or improved under a federal award will vest upon acquisition in the district.

Except as otherwise provided by federal statutes or by the federal awarding agency, real property will be used for the originally authorized purpose as long as needed for that purpose, during which time the district must not dispose of or encumber its title or other interests.

When real property is no longer needed for the originally authorized purpose, the district must obtain disposition instructions from the federal awarding agency or pass-through entity. The instructions must provide for one of the following alternatives:

- 1. Retain title after compensating the federal awarding agency an amount determined under 2 C.F.R. 200.311(c)(1).
- Sell the property and compensate the federal awarding agency an amount determined under 2 C.F.R. 200.311(c)(2).
- 3. Transfer title to the federal awarding agency or to a third party designated/approved by the federal awarding agency. The district is entitled to be paid an amount calculated by applying the district's percentage of participation in the purchase of the

real property (and cost of any improvements) to the current fair market value of the property.

2 C.F.R. 200.311

| Equipment<br><i>Title and Use</i> | Subject to the requirements and conditions set forth in 2 C.F.R. 200.313, title to equipment acquired under a federal award will ves upon acquisition in the district. Unless a statute specifically authorizes the federal agency to vest title in the district without further responsibility to the federal government, and the federal agency elects to do so, the title must be a conditional title. Title must vest in the district subject to the following conditions:  |  |  |  |  |

| Disposition                       | If the district is authorized or required to sell the property, proper sales procedures must be established to ensure the highest possible return.  |  |  |  |  |

| Liability under<br>Federal Securities<br>Law   | School districts, board members, and certain employees of the dis-<br>trict are subject to liability under the antifraud provisions of the fed-<br>eral securities laws contained in Section 17(a) of the Securities Act   |

of 1933 (the "Securities Act"), Section 10(b) of the Securities Exchange Act of 1934 (the "Exchange Act") and Rule 10b-5 of the SEC. The antifraud provisions generally prohibit false or misleading statements made in connection with the offer or sale of a district's bonds (or the omission of material facts from such statements), including the official statement itself and any other statement reasonably expected to reach bond investors (disclosures). SEC Exchange Act Release No. 33741 (Mar. 9, 1994)

The antifraud provisions also apply to a district's continuing disclosure obligations under SEC Rule 15c2-12(b) after a district's bonds are issued. [See Continuing Disclosure after Issuing Bonds, above] SEC Report on the Municipal Securities Market (July 31, 2012) (the "SEC 2012 Report") at pg. 29

*Note:* In preparing an official statement, a district may reasonably rely on the advice of outside professionals who are also subject to the antifraud provisions, but a district is primarily liable for the content of its official statement and other disclosures. *SEC Exchange Act Release No.* 36761 (Jan. 24, 1996)

A district may engage qualified consultants, including qualified disclosure or securities counsel and a financial adviser, to assist with preparing an official statement and other primary disclosures relating to a bond offering. Creation of internal procedures may help to insulate a district against criticism or liability under federal securities laws.

Districts may also engage disclosure counsel and/or other professionals to assist with secondary disclosure, including advice and assistance ensuring that (1) reporting requirements imposed by a CDA are satisfied and (2) information disclosed in periodic and occasional reports is accurate and complete.

Internal procedures may provide for (1) appointment of, and disclosure training for, district officials and employees who will be part of the financing team, (2) a procedure of accountability for review of the disclosures, and (3) ensuring that any procedures established are in fact followed.

| Government Code Chapter 2269 (Contracting and Delivery Proce-     |

| dures for Construction Projects) does not apply to energy savings |
| performance contracts.  |

Performance Bond Before entering an energy savings performance contract, the board shall require the provider of the energy or water conservation measures to file with the board a payment and performance bond relating to the installation of the measures in accordance with Government Code Chapter 2253 (Public Work Performance and Payment Bonds). The board may also require a separate bond to cover the value of the guaranteed savings on the contract.

Financing An energy savings performance contract may be financed:

- 1. Under a lease/purchase contract that has a term not to exceed 20 years from the final date of installation and that meets federal tax requirements for tax-free municipal leasing or long-term financing.
- 2. With the proceeds of bonds.
- 3. Under a contract with the provider of the energy or water conservation measures that has a term not to exceed the lesser of 20 years from the final date of installation or the average useful life of the energy or water conservation or usage measures.

Notwithstanding other law, the board may use any available money to pay the provider of the energy or water conservation measures under these provisions, and the board is not required to pay for such costs solely out of the savings realized by the district under an energy savings performance contract. The board may contract with the provider to perform work that is related to, connected with, or otherwise ancillary to the measures identified in the scope of an energy savings performance contract.

An energy savings performance contract shall contain provisions requiring the provider of the energy or water conservation measures to guarantee the amount of the savings to be realized by the district under the contract. If the term of an energy savings performance contract exceeds one year, the district's contractual obligations in any one year during the term of the contract beginning after the final date of installation may not exceed the total energy, water, wastewater, and operating cost savings, including electrical, gas, water, wastewater, or other utility cost savings and operating cost savings resulting from the measures as determined by the district, divided by the number of years in the contract term.

The donated food may be received, stored, and distributed on the campus. Food donated by the campus may include:

- 1. Surplus food prepared for breakfast, lunch, or dinner meals or snacks served from the campus cafeteria, subject to any applicable local, state, and federal requirements; or

The type of food donated under item 1 above may include:

- 1. Packaged unserved food that is packaged on the campus of a district and has not been removed from the campus cafeteria;
- 2. Packaged served food if the packaging and food are in good condition;

Food that by law must be maintained at a certain temperature for safety may not be donated unless the campus has maintained the food at the required temperature.

Food donated under these provisions to a nonprofit may be distributed at the campus at any time. Campus employees may assist in preparing and distributing the food as volunteers of the nonprofit organization.

Under this program, a district may adopt a policy under which the district provides food at no cost to a student for breakfast, lunch, or dinner meals or a snack if the student is unable to purchase such meals or snack.

# COMPENSATION AND BENEFITS COMPENSATION PLAN

|   | The Superintendent shall recommend an annual compensation<br>plan for all District employees. The compensation plan may include<br>wage and salary structures, stipends, benefits, and incentives.<br>[See also DEAA] The recommended plan shall support District<br>goals for hiring and retaining highly qualified employees. The<br>Board shall review and approve the compensation plan to be used<br>by the District. The Board shall also determine the total compensa-<br>tion package for the Superintendent. [See BJ series] |
|---|---|
| Pay Administration  | The Superintendent shall implement the compensation plan and<br>establish procedures for plan administration consistent with the<br>budget. The classification of each job title within the compensation<br>plan shall be based on the qualifications, duties, and market value<br>of the position.   |
| Annualized Salary   | The District shall pay all salaried employees over 12 months in<br>equal monthly or semi-monthly installments, regardless of the num-<br>ber of months employed during the school year. Salaried employ-<br>ees hired during the school year shall be paid in accordance with<br>administrative regulations.  |
| Pay Increases   | The Superintendent shall recommend to the Board an amount for<br>employee pay increases as part of the annual budget. Any pay ad-<br>justments for individual employees shall be determined within the<br>approved budget following established procedures.   |
| <i>Midyear Pay</i><br><i>Increases</i><br>Contract<br>Employees | A contract employee's pay may be increased after performance on<br>the contract has begun only if authorized by the compensation plan<br>of the District or there is a change in the employee's job assign-<br>ment or duties during the term of the contract that warrants addi-<br>tional compensation. Any such changes in pay that do not conform<br>with the compensation plan shall require Board approval. [See<br>DEA(LEGAL) for provisions on pay increases and public hearing<br>requirements]                              |
| Noncontract<br>Employees  | The Superintendent may grant a pay increase to a noncontract em-<br>ployee after duties have begun because of a change in the em-<br>ployee's job assignment or to address pay equity. The Superinten-<br>dent shall report any such pay increases to the Board at the next<br>regular meeting.   |
| Pay During Closing  | During an emergency closure, all employees shall continue to be<br>paid for their regular duty schedule unless otherwise provided by<br>Board action. Following an emergency closure, the Board shall<br>adopt a resolution or take other Board action establishing the pur-<br>pose and parameters for such payments. ## COMPENSATION AND BENEFITS COMPENSATION PLAN

 Premium Pay During Disasters
 Nonexempt employees who are required to work to mitigate the reason for an emergency closing shall be paid at the rate of one and one-half times their regular rate of pay for all hours worked up to 40 hours per week. All other nonexempt employees who are required to work during an emergency closing shall be paid their regular rate of pay.
 Overtime for time worked over 40 hours in a week shall be calculated and paid according to law. [See DEAB] The Superintendent shall approve payments and ensure that accurate time records are kept of actual hours worked during emergency closings.

> During an extended closure due to a natural disaster or pandemic, the Superintendent may revise the premium pay criteria to regular pay for hours worked.

*Teachers* The term "employee employed in a bona fide professional capacity" includes any employee with a primary duty of teaching, tutoring, instructing, or lecturing in the activity of imparting knowledge and who is employed and engaged in this activity as a teacher in an elementary or secondary school system by which the employee is employed. The salary basis requirements do not apply to teaching professionals.

Exempt teachers include:

- 1. Regular academic teachers;
- 2. Teachers of kindergarten or nursery school pupils;
- 3. Teachers of gifted or disabled children;
- 4. Teachers of skilled and semi-skilled trades and occupations;
- 5. Teachers engaged in automobile driving instruction;
- 6. Home economics teachers; and
- 7. Vocal or instrumental music instructors.

Those faculty members who are engaged as teachers but also spend a considerable amount of their time in extracurricular activities such as coaching athletic teams or acting as moderators or advisors in such areas as drama, speech, debate, or journalism are engaged in teaching. Such activities are a recognized part of the schools' responsibility in contributing to the educational development of the student.

The possession of an elementary or secondary teacher's certificate provides a clear means of identifying the individuals contemplated as being within the scope of the exemption for teaching professionals. Teachers who possess a teaching certificate qualify for the exemption regardless of the terminology (e.g., permanent, conditional, standard, provisional, temporary, emergency, or unlimited) used by the state to refer to different kinds of certificates. Complaints alleging violations of those sections must be addressed through the district's local grievance procedures or other dispute resolution channels. <i>19 TAC 103.1301(e)</i> |
| Denial of Request                           | The following standards and procedures apply to a denial of a re-<br>quest for placement of a video camera under Education Code<br>29.022(a), or to the denial of a request to release a video or to view<br>a video made under Education Code 29.022(i) or (I)(2).   |
| Exhaustion of<br>Administrative<br>Remedies | Once a request for placement of a video camera or a request to re-<br>lease a video is administratively denied, the requester must ex-<br>haust administrative remedies through the district's grievance<br>process even if the requester opts for the expedited review<br>process. However, a district, parent, staff member, or administrator<br>may request an expedited review even before the local remedies<br>are exhausted.               |

| Release<br>Determination                | In a case where there is a denial of a request to release a video,<br>the commissioner will determine whether the requester is a person<br>allowed to receive a video under Education Code 29.022(i) (de-<br>scribed at Limited Release, above). |   |  |
|---|--|---|--|
| Timelines for<br>Petition for<br>Review | The following timelines are established for filing a petition for re-<br>view:   |   |  |
|   | 1.   | A petition for review shall be filed with the commissioner<br>within ten calendar days of the decision of the board denying<br>the request being first communicated to the requester or re-<br>quester's counsel, whichever occurs first. The petition for re-<br>view shall be made in accordance with 19 Administrative<br>Code 157.1073(c) (hearings brought under Education Code<br>7.057) and may include a request for expedited review.  |  |
|   | 2.   | The district's answer and local record shall comply with 19<br>Administrative Code 157.1052(b) and (c) and 19 Administra-<br>tive Code 157.1073(d) and shall be filed with the commis-<br>sioner within ten calendar days of the district receiving notifi-<br>cation from the commissioner of the appeal.  |  |
|   | 3.   | The procedures specified in 19 Administrative Code 157.1059; .1061; and .1073(e)–(h), (j), and (k) apply to a case brought to the commissioner under this section.  |  |
| Expedited                               | A request for expedited review is governed by the following.   |   |  |
| Expedited<br>Review                     | 1.   | The expedited review process is designed to allow a re-<br>quester to promptly receive a preliminary judgment from the<br>commissioner as to a decision to deny a request for the instal-<br>lation of cameras or a decision to deny a request to release a<br>video while at the same time respecting the school grievance<br>process. The expedited review process does not apply to a<br>request to only view a video. Invoking the expedited review<br>process results in a prompt initial determination. However, the<br>final commissioner's determination is to be based on a sub-<br>stantial evidence review of the district's grievance record. This<br>allows for a full record to be developed at the district level and<br>does not require the requester and the district to make an evi-<br>dentiary record before TEA in Austin, Texas. Because the re-<br>quirements of Education Code 7.057 are met when the<br>board's decision is heard by the commissioner, an appeal to<br>district court is allowed under Education Code 7.057(d). Edu-<br>cation Code 29.022 does not by itself allow an appeal to dis-<br>trict court. |  |
|   | 2.   | A district, parent, staff member, or administrator may request<br>an expedited review. Any request for an expedited review  |  |

shall include the names, telephone numbers, and addresses of all interested parties to the request. "Interested parties" are all persons who brought the grievance, all persons who have testified or provided written statements as part of the grievance process, and the district. The request for expedited review shall specify whether the district denied a request for the placement of a video camera or the district denied a request to release a video and briefly describe why that decision is either correct or incorrect.

- 3. A request for expedited review shall be filed with the commissioner no earlier than 14 business days after a request for placement of a video camera or a request to release a video is administratively denied under Education Code 29.022(i) or (I)(2) (see Limited Release and Process, above), and no later than the fifth business day after a board resolves a grievance as to a request for placement of a video camera or a request to release a video. A request for expedited review shall be filed with the commissioner electronically as provided on TEA's Division of Hearings and Appeals website or by U.S. Mail, facsimile, hand-delivery, or by a commercial delivery service.
- 4. Whenever an interested party files a document with the commissioner, with the exception of the request for expedited review, the interested party shall send the same document to all other interested parties by the same method that the document was sent to the commissioner. Hand-delivery of the document by the next day may be substituted for service by facsimile delivery.
- 5. If a request for expedited review is timely filed, the commissioner will establish a briefing schedule and will send to all interested parties a notice that an expedited review has been filed, which will include relevant statutes and rules. Any interested party who knows of any additional interested parties who have not been notified will promptly inform the commissioner in writing.
- 6. All briefing shall clearly state the facts relied upon. Documents relevant to the issues presented may be attached to a brief. All briefing shall provide the reasons why the commissioner should or should not grant the request for expedited review. Citations to statutes, rules, commissioner decisions, and case law are important to identify the legal basis for the claims made.

|                   | 7.   | All interested parties who are in favor of granting the request<br>for expedited review shall file briefing at the time specified for<br>the requester of the expedited review.  |  |  |  |  |
|-------------------|--|--|--|--|--|--|
|                   | 8.   | All interested parties who are opposed to granting the request for expedited review shall file briefing at the same time.  |  |  |  |  |
|                   | 9.   | Briefing is not limited to the issues specifically raised in the<br>pleadings in the case. However, no new arguments may be<br>raised in the reply briefs. Reply briefs may contain new cita-<br>tions to the record and legal authority as to issues previously<br>raised.  |  |  |  |  |
|                   | 10.  | A preliminary judgment shall be issued based on the briefing<br>of the interested parties. The preliminary judgment will be<br>sent to the requestor, the district, and all interested parties. If<br>it is determined that a district is not likely to prevail on the is-<br>sue of a request for the placement of video cameras or the is-<br>sue of a request to view a video under full review, the district<br>will fully comply with Education Code 29.022.  |  |  |  |  |
|                   | 11.  | After a preliminary judgment is made, a final judgment will be made in accordance with the procedures set forth in 19 Administrative Code 103.1303(b)(1)–(5) (the Denial of Request Review process).   |  |  |  |  |

In particular, the interested parties will be informed that it is their choice whether to participate in the proceedings before the commissioner, that it is entirely up to them to determine to what extent they wish to participate in the proceedings, that the procedures governing these proceedings are found in 19 Administrative Code 103.1303 and Education Code 29.022, and that upon their written request filed with the commissioner they will be sent all filings in this case.

ARD Committee For a student served by special education who does not perform Determination satisfactorily on an assessment instrument administered under Education Code 39.023(a) [see EKB], the student's admission, review, and dismissal (ARD) committee must determine the manner in which the student will engage in supplemental accelerated instruction. ARD committees must consider the individual needs of a student with a disability when determining the manner in which supplemental accelerated instruction is to be provided to the student. If supplemental accelerated instruction is to be provided to the student, the supplemental accelerated instruction must meet the requirements outlined in this subsection unless the ARD committee specifically determines that some or all of the requirements for supplemental accelerated instruction would deny the student access to a FAPE. 19 TAC 104.1001(b)(3) Supplemental If a district receives funding under Education Code 29.0881, the Instruction

If a district receives funding under Education Code 29.0881, the Coronavirus Response and Relief Supplemental Appropriations Act, 2021 (Div. M, Pub. L. No. 116-260), or the American Rescue Plan Act of 2021 (Pub. L. No. 117-2), then supplemental instruction provided by a district must:

- 1. Include targeted instruction in the essential knowledge and skills for the applicable grade levels and subject area;
- 2. Be provided in addition to instruction normally provided to students in the grade level in which the student is enrolled;
- 3. Be provided for no less than 30 total hours during the subsequent summer or school year and, unless the instruction is provided fully during summer, include instruction no less than once per week during the school year;
- 4. Be designed to assist the student in achieving satisfactory performance in the applicable grade level and subject area;
- 5. Include effective instructional materials designed for supplemental instruction;
- 6. Be provided to a student individually or in a group of no more than three students, unless the parent or guardian of each student in the group authorizes a larger group;
- 7. Be provided by a person with training in the applicable instructional materials for the supplemental instruction and under the oversight of the district; and

### ACADEMIC ACHIEVEMENT

A district must award credit proportionately to a student who is homeless or in substitute care who successfully completes only half of a course. Districts must evaluate the student record upon a student's enrollment and ensure that proportionate credit has been awarded appropriately.

If a district determines that there are courses in which a student was enrolled but for which the student has not earned credit, the district may use a variety of methods to determine whether the student may be eligible for full or proportionate credit for coursework completed. The award of credit must be based on demonstrated proficiency in all state and local requirements for a course in accordance with 19 Administrative Code 74.26.

A district must provide opportunities for a student who is homeless or in substitute care who enrolls in the district after the start of the school year to be administered credit by examination at any point during the school year, as required by 19 Administrative Code 74.24 (Credit by Examination) [see EHDB and EHDC].

Districts must:

- Develop processes for students who have credit deficits or incomplete coursework that would impede on-time promotion or graduation to earn credit and implement appropriate academic interventions to address any credit deficiencies identified;
- Develop and administer a personal graduation plan in accordance with Education Code 28.0212 (see EIF) for each student in junior high or middle school who is not likely to receive a high school diploma before the fifth school year following the student's enrollment in grade 9, as determined by the district, or does not perform satisfactorily on a state assessment instrument;
- 3. Review personal graduation plan options with each student entering grade 9 and with that student's parent or guardian as required by Education Code 28.02121 [see EIF]. Before the conclusion of the school year, the student and the student's parent or guardian must confirm and sign a personal graduation plan for the student;
- 4. Ensure that school staff actively engage with the student and the student's parent or guardian, as applicable, to develop a plan to recover credits if the student has credit deficits or incomplete coursework that would impede on-time promotion or graduation; and

| Accountability<br>Testing                | A student electing to substitute an assessment for graduation pur-<br>poses must still take the corresponding EOC assessment required<br>under Education Code 39.023(c) at least once for accountability<br>purposes. If a student sits for an EOC assessment, a district may<br>not void or invalidate the test in lieu of a substitute assessment.  |

| Tuition Allotment<br>of the Home<br>District | For the purposes of calculating the tuition allotment of the home<br>district as authorized by Education Code 48.154, the amount of tu-<br>ition that may be attributed to a home district for a transfer student<br>in payment for that student's education may not exceed an amount<br>per enrollee calculated for each receiving district. The calculated<br>limit applies only to tuition paid to a receiving district for the educa-<br>tion of a student at a grade level not offered in the home district.<br>Tuition may be set at a rate higher than the calculated limit if both<br>districts enter a written agreement, but the calculated tuition limit<br>will be used in the calculation of the tuition allotment for the home<br>district. The calculation will use the most currently available data in<br>an ongoing school year to determine the limit that applies to the<br>subsequent school year. For purposes of this provision, the num-<br>ber of students enrolled in a district will be appropriately adjusted<br>to account for students ineligible for the Foundation School Pro-<br>gram funding and those eligible for half-day attendance. |
| Calculated<br>Tuition Limit                  | The calculated tuition limit is the sum of the excess maintenance and operations (M&O) revenue per enrollee and the excess debt  |

revenue per enrollee, as calculated in 19 Administrative Code 61.1012(b)(2)–(3).

Notification and Appeal Process In the spring of each school year, the commissioner will provide each district with its calculated tuition limit and a worksheet with a description of the derivation process. A district may appeal to the commissioner if it can provide evidence that the use of projected student counts from the LPE in making the calculation is so inaccurate as to result in an inappropriately low authorized tuition charge and undue financial hardship. A district that used significant nontax sources to make any of its debt service payments during the base year for the computation may appeal to the commissioner to use projections of its tax collections for the year for which the tuition limit will apply. The commissioner's decision regarding an appeal is final.
