

SOUTHEAST ISLAND SCHOOL DISTRICT

WE NEED YOUR FEEDBACK!

The Southeast Island School District Board of Education is asking ALL stakeholders (parents, students, community members, staff members, etc.) to complete a **Strategic Planning Pre-survey**. This survey is your opportunity to share your perspective on several topics that are critical to the development of SISD's new Strategic Plan.

What is a Strategic Plan? This plan will:

- set the district's direction for the next 3-5 years
- focus on the district's priorities and action plans in the areas of student learning and achievement
- be based on input from stakeholders
- act as a road map to success, providing the superintendent and staff with direction and allowing them to focus on outcomes

The survey can be completed online – just go to the SISD website home page (www.sisd.org) and scroll to the box labeled “Strategic Planning” to find the link.

All responses are anonymous.

Thank you so much for your help 😊
