Reporting Timelines for Spring 2023 STAAR

The State of Texas Assessments of Academic Readiness (STAAR®) redesign will be fully implemented in spring 2023 for all grades/subjects and courses. Since new question types have been added to STAAR assessments and the test blueprints have been updated, the Texas Education Agency (TEA) wants to ensure that the performance standards continue to accurately reflect what students know and can do through a standard-setting process. Educators from across the state will convene in the spring and summer to provide their expert opinions and verify that the cut points and related scale scores are appropriate for the redesigned STAAR assessments. Given this extra activity, the reporting process will be a bit longer this summer.

The timelines below specify the information that will be available and when it will be available. District leaders should use these timelines to plan for decisions that must be made using assessment data. More details regarding reporting timelines may be found on the 2022–2023 Calendar of Events.

STAAR End-of-Course (EOC) Assessments

Date	Event	Format and Location	Additional Details
05/12/23	End of Spring Testing Windows	—	The English I and English II testing window now occurs two-weeks later than previous years, allowing for more instructional time.
05/22/23	Early Raw Scores and Supporting Guidance	• Data files sent to district testing coordinator's secure inbox in the Test Information Distribution Engine (TIDE) • Student results available in the Centralized Reporting System (CRS) • PDFs of Supporting Guidance posted on STAAR Redesign webpage	Districts will see raw scores (how many points students earned), student responses to all questions, and whether the student response was correct or incorrect. These scores are considered preliminary until quality control processes are complete. To support accelerated instruction and graduation decision-making before performance levels are available on 05/31/23, TEA will provide supporting guidance that indicates whether the total raw score earned is likely passing, likely not passing, or in the zone of uncertainty for each test. (Passing = Approaches or higher.) Images of student responses for each item on the test will be available in CRS to assist in planning accelerated instruction activities. See sample guidance at the end of this document.
05/31/23	Early Scale Scores and Performance Levels	• Data files sent to district coordinator's secure inbox in TIDE • Student results available in CRS	Districts will see preliminary scale scores and performance levels. If there are no corrections to request, final accelerated instruction and graduation decisions may be made from this information. Individual student results will be available in CRS for all other roles starting on 06/05/23.
06/27/23	Preliminary Assessment Reports	Standard preliminary assessment reports sent to district coordinator's secure inbox in TIDE	Standard preliminary assessment reports will include data files, district and campus summary reports, confidential campus rosters, and student report cards. If there are no corrections to request, final accelerated instruction and graduation decisions may be made from this information.
06/30/23	Preliminary Assessment Results for Families	Preliminary assessment results published in the Family and Analytic Portals	Preliminary assessment results are available in the Family and Analytic Portals.

| 08/08/23 | Final Assessment Reports | Standard final assessment reports sent to district coordinator's secure inbox in TIDE | Standard final assessment reports will include updated data files and student report cards based on any corrections requested. Final student-level determinations may be made from these reports. |
| 08/11/23 | Final Assessment Results for Families | Final assessment results published in the Family and Analytic Portals | Final assessment results are available in the Family and Analytic Portals based on any corrections requested. |

STAAR Grades 3–8 Assessments

Date	Event	Format and Location	Additional Details
05/12/23	End of Spring Testing Windows	—	—
05/22/23	Early Raw Scores and Supporting Guidance	• Data files sent to district testing coordinators' secure inboxes in the Test Information Distribution Engine (TIDE) • Student results available in the Centralized Reporting System (CRS) • PDFs of Supporting Guidance posted on STAAR Redesign webpage	Districts will see raw scores (how many points students earned), student responses to all questions, and whether the student response was correct or incorrect. These scores are considered preliminary until quality control processes are complete. To support accelerated instruction decision-making before performance levels are available on 08/11/23, TEA will provide supporting guidance that indicates whether the total raw score earned is likely passing, likely not passing, or in the zone of uncertainty for each test. (Passing = Approaches or higher.) Images of student responses for each item on the test will be available in CRS to assist in planning accelerated instruction activities See sample guidance at the end of this document.
06/09/23	Preliminary Assessment Reports (raw scores only)	Preliminary assessment reports sent to district coordinator's secure inbox in TIDE	Preliminary assessment reports will show only raw score information and not the performance level achieved. These reports include data files, district and campus summary reports, and confidential campus rosters. Districts may request corrections based on these reports.
08/11/23	Final Assessment Reports (scale scores and performance levels)	• Standard final assessment reports sent to district coordinator's secure inbox in TIDE • Student results available in CRS	Scale scores and performance levels will be available for the first time on the final assessment reports, which include updated data files and student report cards. Final student-level determinations may be made from these reports. Individual student results will be available in CRS.
08/16/23	Final Assessment Results for Families	Assessment results published in Family and Analytic Portals	Final assessment results are available in the Family and Analytic Portals.

Sample Supporting Guidance for Raw Scores

To support accelerated instruction and graduation decision-making before performance levels are available (05/31/23 for STAAR EOC assessments and 08/11/23 for STAAR grades 3–8 assessments), supporting guidance will indicate whether the total raw score earned is likely passing, likely not passing, or in the zone of uncertainty for each test. (Passing = Approaches or higher.)

In addition, images of student responses for each item on the test and how many points the student received will be available in CRS to assist in planning accelerated instruction activities

Until the standard-setting process and all quality control processes are completed, performance levels cannot be finalized. Once preliminary or final results with performance levels are available, use of this guidance will no longer be needed, and school systems should use the performance level information to inform decision-making for each student.

Spring 2023 STAAR EOC Assessment

Raw Score	Preliminary Determination
1	Likely did not pass
2	Likely did not pass
3	Likely did not pass
4	Likely did not pass
5	Likely did not pass
6	Likely did not pass
7	Zone of uncertainty
8	Zone of uncertainty
9	Zone of uncertainty
10	Zone of uncertainty
11	Zone of uncertainty
12	Zone of uncertainty
13	Zone of uncertainty
14	Likely passed
15	Likely passed
16	Likely passed
17	Likely passed
18	Likely passed
19	Likely passed
20	Likely passed
