

June 17, 2025

Matt Koester
Superintendent of Schools / USD 413
321 East Main Street
Chanute, KS 66720

Dear Mr. Koester,

Please consider this bid for USD 413 fuel needs for the 2025-2026 school years.

We offer to supply gasoline and premium grade D diesel fuel at thirty cents per gallon over our cost, relative to the day of our last load delivered to us, based on Valero brand fuels. Price will be consistent from our facility pumps or delivery trucks. There will be no fees or surcharges for delivering fuels to USD 413 at 903 W. Ash, Chanute. A copy of our daily refinery rack price will be provided upon request for verification. We are happy to provide a 560 gallon storage tank and secondary containment, if desired, at no charge.

There is a price difference between E10- gasohol and lead free gasoline sometimes significant. Chandler Oil offers both products. In recent years, USD 413 has chosen to use E-10 gasohol blend.

USD 413 is a valued customer. We strive to provide you quality products and service at competitive prices.

Pricing for date of bid	Base price	Federal Tax Excise	State Tax Excise	Total/Gallon
Unleaded Gasoline	\$2.91225	none	.240	\$3.15225
E-10 gasohol	\$2.58605	none	.240	\$2.82605
Dyed Diesel	\$2.80955	none	none	\$2.80955

Thank you for the opportunity.

Sincerely,

William Beck
