WELCOME AND GREETINGS, STUDENTS OF BADGER SCHOOL

The members of the faculty, staff, and school administration welcome you to a productive and enjoyable school year. The contents of this handbook have been reviewed and approved by the members of the Badger Board of Education in June 2022.

This handbook should provide you with answers to most major questions regarding school rules and procedures. However, it is not possible to include all school policies and situations that might arise in this handbook, and unforeseen circumstances will be dealt with by administration when they occur.

In addition to our academic offerings, we encourage all students to take advantage of the many extracurricular and community service opportunities available to them throughout this school year. Have a successful and rewarding year!

E. SCHOOL MEAL PROGRAM

The Badger School offers both breakfast and lunch to its students. We use a computerized system that records the number of meals a student eats. Student breakfast/lunches must be prepaid. Reminder notices will be sent home when student accounts need to be replenished. Parents may call the school office or check online to inquire about their balance. Overdue accounts may be sent to a collection agency. The cost per meal is as follows:

	Breakfast		Lunch		Milk
	Regular	Reduced	Regular	Reduced	
*Elementary	\$0.80	\$0.00	\$1.60	\$0.40	\$0.25
*Secondary	\$0.80	\$0.00	\$1.60	\$0.40	\$0.25
Adult	The Badger School follows the adult meal price guidelines set forth by the Food and Nutrition Program at the Minnesota Department of Education.				
*Seconds (All)	\$0.80	\$0.80	\$1.00	\$1.00	\$0.25

*Prices subject to change after handbook printing.

Application forms are available at the superintendent's office for those families who feel they may qualify for free or reduced meals.

As much of the food is provided by the U.S. Government and must be accounted for, all food must be consumed within the cafeteria. To protect the environment and keep the grounds clean, throw away food containers (plastic cups, etc.) must not be taken out of the cafeteria.

The Offer Versus Serve provision of the Badger School Lunch Program permits students to decline food they do not intend to eat. Our Program is required to offer a full portion of the five (5) required meal pattern items, (meat or meat alternative, bread or bread alternate, milk, and two vegetables/fruits). Students are allowed to refuse two of the five food items offered. Students are required to eat three (3) of the five food items offered. School cooks will assist students in their selections to make sure the required meal items are being chosen.

Students who bring lunches to school will consume them in the cafeteria during noon lunch break.

F. TRANSFERRING TO, OR FROM, ANOTHER SCHOOL DISTRICT

Any student planning to transfer to another school or enrolling in the Badger School from another district must have a parent or guardian report to the school office to complete the required transfer forms. Administration will determine the appropriate placement/programming for all incoming students. A student leaving the district must return all books, technology, and supplies provided by the Badger School.

G. AGE OF MAJORITY / ADMISSION TO PUBLIC SCHOOL

According to Minnesota law, all schools supported in whole or in part by state funds are public schools. Admission to public school is free to any person who resides within the district that operates the school, who is under 21 years of age, and who satisfies the minimum age requirements imposed by this section. Notwithstanding the provisions of any law to the contrary, the conduct of ALL students under 21 years of age attending public secondary school shall be governed by a single set of reasonable rules and regulations promulgated by the local board of education. This means students over the age of 18 must follow the same rules and regulations as all other students under the age of 18, including having to have a parent's excuse note when having been, or planning on being absent.

H. STUDENT RECORDS

Student records may be viewed by the student or parent by appointment. Transcripts will be sent to other schools, employers, etc. only by written request of the parent or student if he/she is over the age of 18.

I. HOMEWORK POLICY

Homework is used as guide to practice skills learned in the classroom; therefore it is important that students do their own work in a neat and careful manner. Parents should provide assistance only when needed. Unless otherwise designated, all assignments are expected to be handed in the following day. If assignments are not completed on time, after school hours may be assigned by the teacher. Parents will be contacted by phone or written notice if a student is assigned after school hours to complete assignments.

J. SCHOOL EVENT RULES OF CONDUCT

L. SCHOOL CLOSING / SEVERE WEATHER

Announcements

In the event that school is to be closed due to severe weather, the Badger School uses the Blackboard Connect automated calling system to notify all homes when a late start or closing will occur. In addition, announcements will be made over Radio Stations KKWQ in Warroad (92.5 FM radio), and KCAJ in Roseau (102.1 FM radio), Channel 8 WDAZ, Channel 11 KVLV, and Channel 4 KXJB.

Emergency Home

Before October 1, provisions must be made for students for a place to stay in town in the event that an emergency prohibits the transportation of students to their homes. It is also suggested that this form be completed if the parents work out of town and transportation is inhibited in emergency situations. A letter of provision is included in your fall information mailing and should be read, signed and returned to the school office or student's teacher before the October 1st deadline. This letter will be kept on file by the school office for use in a storm emergency. If you do not receive an "EMERGENCY PROVISIONS" letter, please contact the school office as soon as possible.

M. SCHOOL VISITORS

The Badger School welcomes visitors. School Board members, parents, and former alumni are welcome to visit whenever convenient. Visitors of students, including brothers and sisters are not allowed during regular school hours unless accompanied by a parent. All visitors must check in at the office first. Visits should not interrupt regular classroom activities. Tours of the school will gladly be given to new or prospective students and their parents or guardians.

N. TELEPHONE PRIVILEGES

Students will be called out of class only in emergencies. Incoming calls of importance will be noted in the office so students can return calls at a convenient time. **The student phone, located near the office, is for the personal use by the students only before and after school, in between classes, and during lunch break. Phone calls are limited to five (5) minutes. The use of student cell phones are limited to specific times while in school. (See “Electronic Communication Devices” page 14)**

If the temperature is 25 degrees below zero or colder (wind chill), students will remain in school and not attend religious training. Regular class schedules will be used if release time classes are cancelled. A written note from the parent is required if the student is to discontinue religious instruction. Weekly classes (grades 1-6) will be held from the first Tuesday in October to the last Tuesday in April.

F. ELEMENTARY STUDENT CONDUCT

1. Responsive Classroom

Badger Elementary uses the *Responsive Classroom*® approach to teaching and learning. The following information was found at <https://www.responsiveclassroom.org/about/>

The *Responsive Classroom*® is an approach to elementary teaching that emphasizes social, emotional and academic growth in a strong and safe school community. The goal is to enable optimal student learning. Created by classroom teachers and backed by evidence from independent research, the *Responsive Classroom*® approach is based on the premise that children learn best when they have both academic and social-emotional skills. The approach therefore consists of classroom and schoolwide practices for deliberately helping children build academic and social-emotional competencies.

Seven principles, informed by the work of educational theorists and the experiences of practicing classroom teachers, guide the *Responsive Classroom*® approach:

- The social curriculum is as important as the academic curriculum.
- How children learn is as important as what they learn: Process and content go hand in hand.
- The greatest cognitive growth occurs through social interaction.
- To be successful academically and socially, children need a set of social skills: cooperation, assertion, responsibility, empathy, and self-control.
- Knowing the children we teach – individually, culturally, and developmentally – is as important as knowing the content we teach.
- Knowing the families of the children we teach and working with them as partners is essential to children's education.
- How the adults at school work together is as important as their individual competence: Lasting change begins with the adult community.

2. Elementary Disciplinary Actions

Elementary students are subject to disciplinary actions that may include:

After School Detention: Students report to the area designated by the classroom teacher until 4PM to complete assigned work.

Noon Hour Detention: Noon Hour Detention refers to the time that a student spends in the designated area. While in detention, the student usually spends the time on school work.

In School -Suspension: "Isolation, yet Educational". Purpose: To provide an isolated but educational environment for students who choose to behave inappropriately at school.

2. Elementary Disciplinary Actions (Cont.)

- a. Parent / Guardian will be notified by phone or in writing when a student is assigned to In School Suspension
- b. Clear rules and consequences are enforced
- c. Students are expected to complete assigned work.
- d. Readmittance to the classroom could include:
 - 1. Review of assigned work
 - 2. Development of administrator's special behavior plan
 - 3. Participation in extra social skills development

Out of School Suspension: A student may be assigned Out of School Suspension for a severe breakage of a school expectation.

- a. Parent/Guardian will be notified by phone or in writing prior to Out of School Suspension
- b. Out of School Suspension may be assigned for 1 or more days
- c. Report to the office on reinstatement
- d. The school will follow the procedures outlined in the Pupil Fair Dismissal Act (guidelines available in the office)

A- (91-94)= 3.75	B (85-87) = 3.00	C (75-78) = 2.00	D (68-69) = 1.00	
	B- (82-84) = 2.75	C- (72-74) = 1.75	D- (65-67) = 0.75	

Non-PSEO Badger High School juniors and seniors who successfully complete Advanced Placement or International Baccalaureate courses and receive college credit, or take Concurrent Enrollment college courses, or courses that have an Articulation agreement with a college or technical college, will receive the following grade points on their high school transcripts upon the completion of those courses:

B	=	3.500	D	=	1.500
B-	=	3.170	D-	=	1.170

Without discipline in the school, learning cannot occur; therefore, this district-wide school discipline policy has been adopted.

It is the responsibility of the school board, administrators, parents, legal guardians, teachers, and other school staff to safeguard the health and safety of each student. The school board and district administrators will support district personnel who, in dealing with students on disciplinary matters, act in accordance with state statute, Department of Education regulations, and this policy.

Badger High School Category II penalties will be treated like Category I penalties except that regaining eligibility will be determined by the number of events rather than the calendar days in which the student is ineligible to participate.

PEST CONTROL MANAGEMENT

Parents Right to Know Act (M.S. 123B.575, Subdivisions 1-14)

1. Notice Concerning Use of Pest Control Materials:

Our district utilizes a licensed, professional pest control service firm for the prevention and control of rodents, insects, and other pests in and around the district's buildings. Their program consists of:

- a. Inspection and monitoring to determine whether pests are present, and whether any treatment is needed;
- b. recommendations for maintenance and sanitation to help eliminate pests without the need for pest control materials;
- c. utilization of non-chemical measures such as traps, caulking and screening; and application of EPA-registered pest control materials when needed.

Pests can sting, bite, cause contamination, damage property, and spread disease; therefore, we must prevent and control them. The long-term health effects on children from the application of such pest control materials, or the class of materials to which they belong, may not be fully understood. All pest control materials are chosen and applied according to label directions per Federal law.

An estimated schedule of interior pest control inspections and possible treatments is available for review or copying at the school office. A similar estimated schedule is available for application of herbicides and other materials to school grounds. Parents of students may request to receive, at their expense, prior notification of any application of pest control material, should such an application be deemed necessary on a day different from the days specified in the school.

This information will help parents/guardians make informed decisions that benefit their children, schools, and communities.

Why statewide testing?

Minnesota values its educational system and the professionalism of its educators. Minnesota educators created the academic standards which are rigorous and prepare our students for career and college.

The statewide assessments are how we as a state measure that curriculum and daily instruction in our schools are being aligned to the academics standards, ensuring all students are being provided an equitable education. Statewide assessment results are just one tool to monitor that we are providing our students with the education that will ensure a strong workforce and knowledgeable citizens.

Why does participation matter?

A statewide assessment is just one measure of your student’s achievement, but your student’s participation is important to understand how effectively the education at your student’s school is aligned to the academic standards.

- In Minnesota’s implementation of the federal Every Student Succeeds Act, a student not participating in the statewide assessments will not receive an individual score and for the purpose of school and district accountability calculations, including opportunities for support and recognition, will not be considered “proficient.”
- Students who receive a college-ready score on the high school MCA are not required to take a remedial, noncredit course at a Minnesota State college or university in the corresponding subject area, potentially saving the student time and money.
- Educators and policy makers use information from assessments to make decisions about resources and support provided.
- Parents and the general public use assessment information to compare schools and make decisions about where to purchase a home or to enroll their children.
- School performance results that are publicly released and used by families and communities, are negatively impacted if students do not participate in assessments.
- English learners not taking ACCESS or Alternate ACCESS for ELLs will not receive a score to meet English learner program exiting criteria.

Academic Standards and Assessments

What are academic standards?

The [Minnesota K–12 Academic Standards](#) are the statewide expectations for student academic achievement. They identify the knowledge and skills that all students must achieve in a content area and are organized by grade level. School districts determine how students will meet the standards by developing courses and curriculum aligned to the academic standards.

What is the relationship between academic statewide assessments and the academic standards?

The statewide assessments in mathematics, reading, and science are used to measure whether students, and their school and district, are meeting the academic standards. Statewide assessments are one measure of how well students are doing on the content that is part of their daily instruction. It is also a measure of how well schools and districts are doing in aligning their curriculum and teaching the standards.

<p style="text-align: center;">Minnesota Comprehensive Assessments (MCA) and Minnesota Test of Academic Skills (MTAS)</p> <ul style="list-style-type: none"> • Based on the Minnesota Academic Standards; given annually in grades 3–8 and high school in reading and mathematics; given annually in grades 5, 8, and high school for science. • Majority of students take the MCA. • MTAS is an option for students with the most significant cognitive disabilities. 	<p style="text-align: center;">ACCESS and Alternate ACCESS for English Learners</p> <ul style="list-style-type: none"> • Based on the WIDA English Language Development Standards. • Given annually to English learners in grades K–12 in reading, writing, listening, and speaking. • Majority of English learners take ACCESS for ELLs. • Alternate ACCESS for ELLs is an option for English learners with the most significant cognitive disabilities.
--	--

Why are these assessments effective?

Minnesota believes that in order to effectively measure what students are learning, testing needs to be more than answering multiple choice questions.

- To answer questions, students may need to type in answers, drag and drop images and words, or manipulate a graph or information.
- The Reading and Mathematics MCA are adaptive, which means the answers a student provides determine the next questions the student will answer.
- The Science MCA incorporates simulations, which require students to perform experiments in order to answer questions.

All of these provide students the opportunity to apply critical thinking needed for success in college and careers and show what they know and can do.

Are there limits on local testing?

As stated in Minnesota Statutes, section 120B.301, for students in grades 1–6, the cumulative total amount of time spent taking locally adopted districtwide or schoolwide assessments must not exceed 10 hours per school year. For students in grades 7–12, the cumulative total amount of time spent taking locally adopted districtwide or schoolwide assessments must not exceed 11 hours per school year. These limits do not include statewide testing.

In an effort to encourage transparency, the statute also requires a district or charter school, before the first day of each school year, to publish on its website a comprehensive calendar of standardized tests to be administered in the district or charter school during that school year. The calendar must provide the rationale for administering each assessment and indicate whether the assessment is a local option or required by state or federal law.

What if I choose not to have my student participate?

Parents/guardians have a right to not have their student participate in state-required standardized assessments. Minnesota Statutes require the department to provide information about statewide assessments to parents/guardians and include a form to complete if they refuse to have their student participate. This form follows on the next page and includes an area to note the reason for the refusal to participate. Your student's district may require additional information.

A school or district may have additional consequences beyond those mentioned in this document for a student not participating in the state-required standardized assessments. There may also be consequences for not participating in assessments selected and administered at the local level. Please contact your school for more information regarding local decisions.

When do students take the assessments?

Each school sets their testing schedule within the state testing window. Contact your student's school for information on specific testing days.

- The MCA and MTAS testing window begins in March and ends in May.
- The ACCESS and Alternate ACCESS for ELLs testing window begins at the end of January and ends in March.

When do I receive my student's results?

Each summer, individual student reports are sent to school districts and are provided to families no later than fall conferences. The reports can be used to see your child's progress and help guide future instruction.

How much time is spent on testing?

Statewide assessments are taken one time each year; the majority of students test online. On average, the amount of time spent taking statewide assessments is **less than 1 percent of instructional time** in a school year. The assessments are not timed and students can continue working as long as they need.

Why does it seem like my student is taking more tests?

The statewide required tests are limited to those outlined in this document. Many districts make local decisions to administer additional tests that the state does not require. Contact your district for more information.

Where do I get more information?

Students and families can find out more on our [Statewide Testing page](https://education.mn.gov) (education.mn.gov > Students and Families > Programs and Initiatives > Statewide Testing).

Minnesota Statutes, section 120B.31, subdivision 4a, requires the commissioner to create and publish a form for parents and guardians to complete if they refuse to have their student participate in state-required standardized assessments. Your student’s district may require additional information. School districts must post this three-page form on the district website and include it in district student handbooks.

*To best support school district planning, please submit this form to the student’s school no later than January 15 of the academic school year. For students who enroll after a statewide testing window begins, please submit the form within two weeks of enrollment. A new refusal form is required **each year** parents/guardians wish to opt the student out of statewide assessments.*
