

**Parent Advisory Department  
Program Report  
April 2020**

- The Community Education Department has been working closely with the food service department to make sure students and families are served breakfast and lunch with the “Grab and Go” meals program. Parents and students have been appreciative of this food service program and it is a success through our district. Ms. Bolton, along with Ms. Armstrong of Safety and Truancy have been doing community “drive-bys” to make sure our district area is covered with food or support.
  - Ms. Bolton has been working on our Social media Facebook page to help our community stay connected due to the state of our country with the COVID-19 pandemic. We are getting a lot of traffic on our page, with parents and students. Ms. Bolton also creates flyers that are sent to schools, if there is a special communication that needs to get out with some urgency. Special “THANKS” to Oscar Herrera and the Tech Team for their teamwork. Also, special shout-out to Kevin Micks, our Tech Coach, for his work on our E-newsletter.
  - Ms. Bolton has been working with Ms. Nichols and the Curriculum Department on the upcoming Chromebook Loan Program. We will be getting the information out to our community when parents are able to pick up Chromebooks for students' Remote Learning Program. Flyers and FB posts will go up in the next few days.
  - We are so fortunate that each department has been working together to make sure our community has not skipped a beat due to our stay at home orders.
- 
- Please LIKE and visit our Facebook page for COVID-19 updates, educational closure updates and “Harvey-At-Home” activities for the students and families.
