Re: Accept Bids for Oak Point & Eagle Heights Playground Site Improvements

The Business office requests authorization to accept bids as presented. This project includes the reconstruction of bituminous and playgrounds as well as the associated storm water management, erosion control, striping, signage, fencing and retaining walls in and around the playground. Most of the playground equipment will be re-used as it's still relatively new.

The district received nine (9) bids for this project, with the low bid being from MN Roadways in the amount of \$654,200.

Funding for this project will come from long-term facilities maintenance revenue, along with budgeted general and capital funds. This project has been scheduled to begin in June 2026 with completion by October 2026.
