Notes:

- * **All 4 playgrounds must be ready at the same time for the price to hold. (CCDC, Prairie, Rutledge and new area)**
- * 1-3/4" thick poured-in-place system meets 4' critical fall height.
- * 2-1/2" thick poured-in-place system meets 5' critical fall height.
- * 3-1/2" thick poured-in-place system meets 8' critical fall height.
- * Thicknesses quoted to meet industry standards for ASTM testing of 1000 HIC/ 200 Gmax.
- * This quote is for material and installation of the play surface only as described on the quote and does not include any ancillary work required such as sub base, security, drainage, removal of any existing surface, testing, etc. That would be done by others at no cost to Surface America.
- * Surface America poured-in-place system is IPEMA certified.
- * Standard wages included.
- * Quote does not include security that is needed to protect the surfacing during curing time. Purchaser shall be responsible for security, as needed, to prevent vandalism and/or damage of any type to the surface during installation process, curing time, and after the installation is completed.
- * With Certain EPDM rubber colors, Surface America recommends aliphatic (non-yellowing) binder be considered, however this is an additional charge. Adding aliphatic binder will carry a 10-year warranty.
- * Surface America recommends the following colors be used as accent colors only: Teal, Yellow, Purple and Primary Red. If one of the listed colors is selected for more than 25% of the top surface, additional charges may need to be added.
- * Due to the volatile urethane pricing in the industry, the price quoted is only valid 30 days from the day the quote was provided.
