### ✓ Flooring & Tile Terms & Conditions

50% of total required on all orders. Remaining balance due 15 days following completion of floor covering & tile installation. 5%-20% overage applied to materials for breakage & cuts. The percentage will change based on overall square footage and material type. KFD recommends keeping one box of material on hand after the completion of the project for repairs if needed. One Year installation warranty. KFD is not responsible for damages that occur once the materials have left our warehouse and/or property.

Flooring may expand and contract in response to fluctuations in temperature and

humidity. Controlling the environment, maintaining adequate temperature and relative humidity will minimize the visible effects of normal contraction and expansion.

Flooring & tile products are subject to: color, texture, grain, shade or dye lot variations from our display samples. Showroom samples and photographic reproductions can give an example of the product's appearance but they may not be representative of the full range of color, texture, knots and grain variations which can occur in the product itself.

In-floor-radiant heating systems must be 100% functional with working thermostats before the flooring installation. Surface temperature of flooring should never be hotter than 80°F per our manufacturers. Warranties, if any, are voided by overheating of the floor. Temperature changes should be made slowly in 2-3 degree increments per day.

KFD uses professional installers who will leave the job site in standard condition. As with all construction projects, there will be dust etc., which may require a construction clean which will be the owner's responsibility. Scuffs on walls and cabinets can occur. The homeowner may need to do touch-ups after installation.

All bids are made on the assumption that the sub-floor for the project is solid, level & in good condition.

#### ✓ **Estimate Terms & Conditions**

Estimates provided by Kitchen & Floor Decor are based on available information at the time of estimation and are subject to change based on unforeseen circumstances or additional requirements. Changes to the scope of work will be presented to the customer for approval. This estimate is valid for 30 days.
