- What is the problem? Only 67% of the district's 2nd grade students are on / above reading benchmark for BOY assessment. District data is near goal.

- Impact statement of the problem (include root cause):
COA Accountability shows that most campuses, except for three, are near or below goal.

- Action to be taken: Continue Guiding Statement #1 Action Plan for all assistant principals to lead for literacy on their campus. K-2 C&I team will support them through coaching and curriculum training.

- When will you give your team and executive council an update?

- What is the problem? Students in grade 8 are performing below grade level on the Math MAP assessment.

- Impact statement of the problem (include root cause): Improvement in 8th grade % on grade level is evident from previous years. After a slight decline from 43% in 23–24 to 39% in 24–25, 8th-grade performance demonstrated recovery, rising to 44% in 25–26. In this grade our students who are enrolled in Algebra I are not taking this exam, therefore the data looks very different than previous grade levels.

- Action to be taken: We will be looking at specific SE's from the assessments to look at and tweak our Tier 1 curriculum. Provide training and resources to staff. We will also compare this data with STAAR data to ensure students are reaching their full potential.

- When will you give your team and executive council an update? Ongoing for 25-26 and MOY report in February.
