

**School Board Workshop:**

**June 14, 2021**

**Subject:**

BHS Scheduling Task Force Update

**Presenter:**

**Pam Miller, Director  
Teaching and Learning  
Mark Mischke, BHS Principal**

---

**SUGGESTED SCHOOL BOARD ACTION:**

No action taken at this time.

An additional report will be brought forward in October upon further development. Board action will be taken at that time.

**DESCRIPTION:**

The 4x4 block schedule has been in place at Buffalo High School since the 1996-1997 school year. It has served many students well, however, we are no longer able to support the continuation of the 4x4 block schedule to serve all students' needs. Therefore, Buffalo High School is planning a schedule change for the 2022-2023 school year. A task force of high school teachers, administrators and district office representatives has been meeting since February to gather information, learn from external sources, and to explore a variety of options.

At Monday's workshop, Mark Mischke, BHS Principal, and Tracy Johnson, BHS Science Teacher and the BHS Scheduling Task Force co-facilitator, will provide an overview of the task force work and an update on the options currently being considered.
