

UNITED INDEPENDENT SCHOOL DISTRICT AGENDA ACTION ITEM

Topic: Approval of CSP (Competitive Sealed Proposals) as the Method of Procurement for the Construction of the Road Extension of Aquero Blvd., Related to the Construction of Juan Roberto Ramirez Middle School

Submitted by: Cordelia Jackson / Ignacio Alaniz **Of:** Director of Purchasing/ Director of Construction

Approved for transmittal to school board: March 23, 2022

Recommendations:

Administration is recommending approval of Competitive Sealed Proposals (CSP) as the Method of Procurement for the Construction of the Road Extension of Aquero Blvd. This project is related to the construction of Juan Roberto Ramirez Middle School, and is a requirement from the City of Laredo Ordinance for property plat approval.

Rationale:

As per Government Code 2269.056, the Board of Trustees of a public school district that is considering a construction contract using a method specified by Government Code 2269 must before advertising determine which method provides the best value. Request for Competitive Sealed Proposals (CSP) is the procurement method best suited for projects that are not schedule-sensitive nor subject to potential change. Some advantages of this method are the selection flexibility and the open aggressive bidding it provides. In reviewing the scope of the recommended project, administration has determined that CSP is the best value method for this project.

Budgetary Information:

2013 Bond Funds

Engineer's Project Cost Estimate in the amount of \$1,801,782.62 (includes a 10% Contingency Allowance Amount)

Project Engineer of Record: CEC Engineering, Mr. Jeff Puig, P.E.
