Middle School Academic Focus

Courses

- **Math:** Number Sense, Expressions & Equations, Functions, Multiplication, Ratios & Proportions
- **ELA:** Comprehension, Informational Text, Vocabulary
- **ELA Standards:** RL.1, RL.2, RL.4 and RI.1, RI.2, RI.4
- **Exploratory Courses:**
- **STEM**
- **Art**
- **Physical Education (PE)**
- **Social Justice**
- **Social-Emotional Learning (SEL) Support**

---In alignment with the district's mission to support the whole child, the **SEL component** of the Summer Academy Program is designed to develop the internal strengths and interpersonal skills our students need to succeed both inside and outside the classroom. This portion of the program is essential for helping students reset, refocus, and rebuild confidence before entering middle or high school.

Middle School Program Highlights

Academic Engagement:

- **Science:** Students participated in hands-on lab experiences, including the dissection of four different specimens. These opportunities enhanced scientific understanding and inquiry-based learning.
- **Mathematics:** Instruction focused on identifying and addressing individual learning gaps. Teachers were able to assess student needs and provide targeted interventions to reinforce foundational skills.
- **ELA & SEL Integration:** English Language Arts and Social Emotional Learning classes promoted literacy, critical thinking, and communication. Students participated in guided reading, dialogue, and active listening exercises, supporting both academic and personal development.
- **Literacy Promotion:**
On Tuesday, July 15, students took part in the **Saginaw Public Schools Book Giveaway**. Each student selected books of personal interest to take home, encouraging summer reading and independent learning.
- **Community Engagement & Enrichment:**
On Thursday, July 25, students and staff attended a well-organized **Field Day** at the Buena Vista Community Center / Lions Park. The event fostered social interaction in a safe and supportive environment. Activities included football, basketball, video games, and playground time. All students were supervised by program staff, and SPSD Food Services provided a picnic-style lunch for all participants.
- **Summary:**
The program provided a well-rounded experience focused on academic reinforcement, social-emotional growth, and community engagement. I am thankful for this opportunity to be a part of the summer learning initiatives that keep students connected, enriched, and prepared for the upcoming school year.
