

Child Nutrition Program
October 2021
Board Report

Our reimbursement for September is . We feed students. Since the High School has open campus for lunch, our count has gone down to 150 students whereas we used to get 350 for lunch when it was closed. A survey for the High School Students to take, is being developed in order to find a solution to meet their needs. For example: pick up and go or possibly having different meals. As of now we serve 4 different lunch meals per day. Our Breakfast is a concern also, we only get about 40 students per morning.

The Middle School was a low count of 60 students until we changed breakfast. And served in each of the PODS on breakfast carts as the student came out of the classroom to get their breakfast. They then eat in the classroom. We went from 60 to 250 for breakfast. The middle school also serves breakfast after the bell. Breakfast is served at 9 am.
