

Exhibit A - DISD Disciplinary Placements 2006-2012

Figure 1

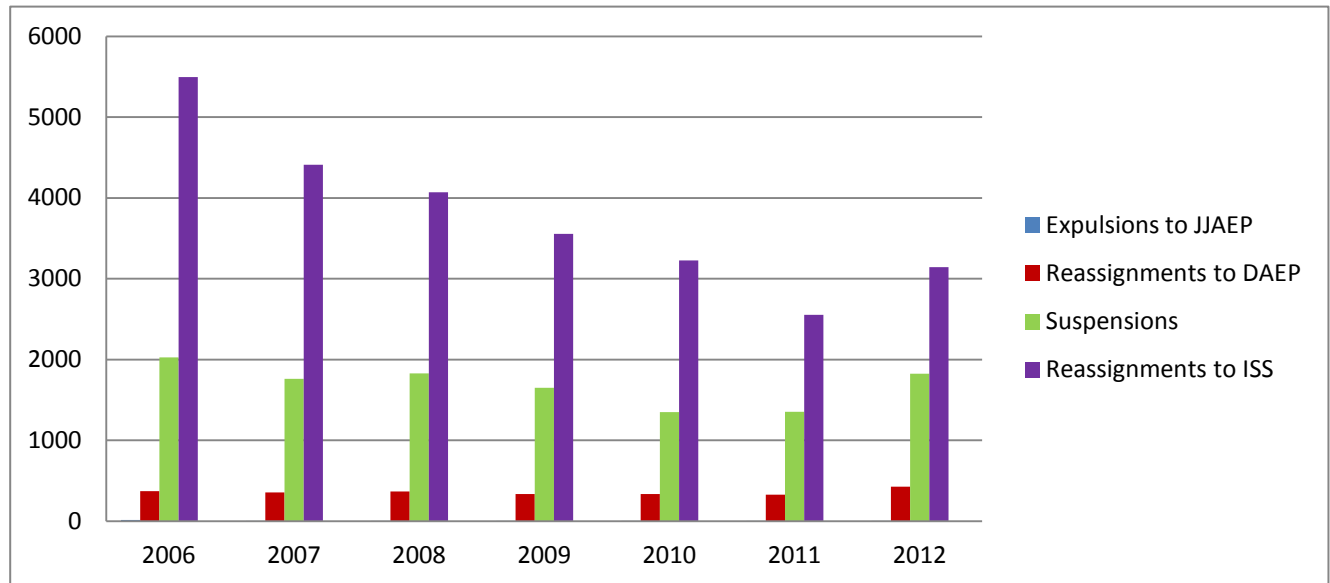

Figure 1 shows the number of disciplinary incidents resulting in out-of class placements from 2005-2006 through 2011-2012 in the Denton Independent School District. (Note: Individual students are counted more than once if they have multiple disciplinary records.)

Figure 2

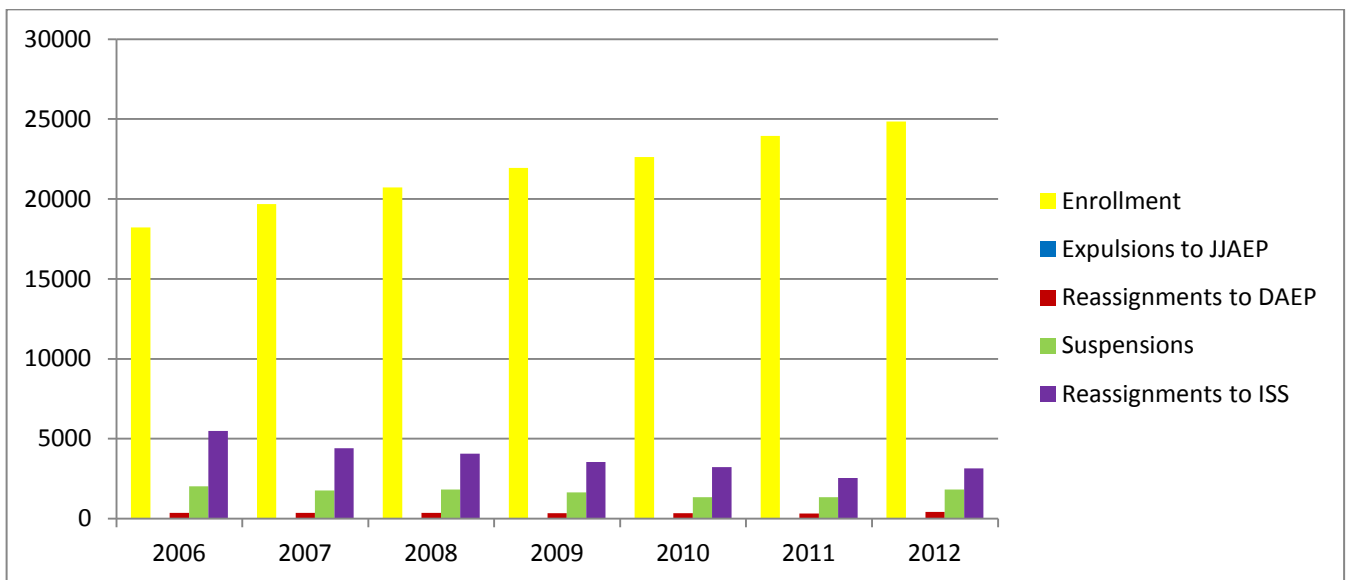

Figure 2 compares the number of disciplinary incidents resulting in out-of class placements with the district's total enrollment from 2005-2006 through 2011-2012. Despite steady increases in year-to-year enrollment, and even with a slight increase in total disciplinary actions from 2010-11 to 2011-12, the school district continues to maintain a positive trend line showing an overall decrease in the amount of out-of-class disciplinary placements used over the last 7 years.
