

President's Report

March 2025

Tech Expansion

We are planning to have RFP on both Eagle Pass & Del Rio Tech expansion project at the April meeting for Board consideration.

Leases

I have had conversations with City Staff and Mayor regarding the Hangar lease. Both have stated that they have instructed their attorney to reach out to our attorney to reconcile lease document language. We will continue to monitor progress.

Legislative

The House is considering HB2110, which has been designated the clean-up bill on HB8 from last session. This bill clarifies rules on dual credit financial aid, adds private and independent universities to eligible fundable transfer outcomes, and further defines credentials of value.

Bond Funding

Funding from the bond sale will occur on March 20th. The funds will be held in escrow in a specific college account that will earn interest until projects are approved.

On the agenda for the March meeting, we have asked for board authorization to begin the planning and request for proposal preparations on the following projects:

- Parking lot repairs and Briscoe Bldg. drive est. cost
- Install Elevators in Admin and Library
- HVAC/Exhaust in Garner Science Bldg.
- Gym HVAC, remove windows, install Entry Foyer, refurbish gym floor
- Witt Nursing Lab addition

Once projects are approved by the Board, we will prepare request for proposals and bring them back for Board consideration.
