

Mandy,

Please get this on the board agenda:

I recommend the board accept Houghton Mifflin as the core reading series for kindergarten and first grade. The reading series is in alignment with the Arizona state standards. By accepting the Houghton Mifflin core reading series, grades K-5th grade will have the same reading series that allows for consistency in reading throughout the elementary. This core reading series offers a comprehensive overview of critical skills that are essential for students in grades K-5.

Thanks,

Monica Barajas, Principal
